Picturing Paul in Empire Harry O. Maier, 2013-10-24 Pauline Christianity sprang to life in a world of imperial imagery In the streets and at the thoroughfares in the market places and on its public buildings and monuments and especially on its coins the Roman Empire's imperial iconographers displayed imagery that aimed to persuade the Empire's diverse and mostly illiterate inhabitants that Rome had a divinely appointed right to rule the world and to be honoured and celebrated for its dominion Harry O Maier places the later often contested letters and theology associated with Paul in the social and political context of the Roman Empire's visual culture of politics and persuasion to show how followers of the apostle visualized the reign of Christ in ways consistent with central themes of imperial iconography They drew on the Empire's picture language to celebrate the dominion and victory of the divine Son Jesus to persuade their audiences to honour his dominion with praise and thanksgiving Key to this imperial embrace were Colossians Ephesians and the Pastoral Epistles Yet these letters remain neglected territory in consideration of engagement with and reflection of imperial political ideals and goals amongst Paul and his followers This book fills a gap in scholarly work on Paul and Empire by taking up each contested letter in turn to investigate how several of its main themes reflect motifs found in imperial images

Masks in Theatre

Lindley Powers Spencer,1968 *Faces in the Frame* Mieke Paulsen Bahmer,2015 Satyric and comedic masks in addition to lively seeming heads that could almost be masks appear with pattern like regularity wherever the Romans had a foothold however the near instinctive impulse to assign a straightforward Hellenistically derived Dionysiac message to the borders where these faces reside has rendered both masks and heads almost invisible to further iconographic study The masks are more thoroughly examined as remnants of Classical theatre than in studies of antique mosaics while the heads that supplant them are treated neither in theatrical studies nor aside from stylistic analyses in art historical scholarship The assumption that satyrs and their depictions in the Roman world retained the same meanings and functions that had been given to them by their Greek originators ignores fundamental distinctions between the two cultures This study follows in the tradition of scholars who have jettisoned the belief that iconological interpretation inevitably accompanies iconographic appropriation This study uses the distinctly Roman cultural background that led to the use of masks as border motifs in early imperial Roman mosaics and the ways in which that cultural heritage may have influenced the a preference for more lifelike and idealized heads instead of masks to gain insight into the role and function of the supernatural wilderness in Roman life and iconography [A Bibliography on the Mask](#) Kay Print Janney,1989 [Theatre Masks Out Side In](#) Wendy J.
