Empowering Readers Mary L. Hoch,Jana L. McNally,2019-12-11 To address Common Core State Standards CCSS for reading and language today s educators strive to help their students develop higher level understanding with challenging materials In this book we share our method for implementing an integrated strategy approach for helping readers understand expository text This approach can be used to accompany and extend text structure instruction on the five most commonly used expository text structures compare and contrast cause and effect problem and solution description and sequence Within this approach we designed a method for using key vocabulary in a way that helps readers think about the structure of the text To aid in the development of higher level understanding with challenging materials this approach

integrates other essential reading comprehension components that foster understanding such as predicting and summarizing. The Structure Sort integrated approach embeds these essential strategies before, during, and after reading to empower students to make connections and build comprehension at all stages of reading. **Inquiry and the Common Core** Violet H. Harada, Sharon Coatney, 2013-12-16 Practicing librarians and library educators demonstrate the power of inquiry to achieve the Common Core State Standards (CCSS) and promote school librarians as key partners in implementing this type of critical teaching and learning in K-12 schools. With the adoption of the CCSS in most of the nation's schools, educators and administrators at K-12 schools have a pressing need to find the best ways to implement these rigorous and comprehensive standards that challenge students to understand informational text and digital content at increasing levels of complexity. This text provides faculty with much needed support in achieving this critical goal, thoroughly describing inquiry learning and how it links to the CCSS. The authors, nearly 30 contributors total, comprising librarians, library media specialists, educational leaders, teachers from the kindergarten level to college professors, and administrators, each with direct experience and knowledge regarding the subject matter, explain how the standards' emphasis on in-depth investigation and evidence-based reading and writing skills dovetail perfectly with inquiry-based learning initiatives. Acclaimed thought leaders such as Jean Donham, Kristin Fontischiaro, Leslie Maniotes, and Barbara Stripling clearly define and illuminate the librarian's role in school initiatives today and share lesson plans that have been proven effective in actual practice. *The Big Book of Literacy Tasks, Grades K-8* Nancy Akhavan, 2018-01-22 With 75 tasks on full-color pages, this book offers a literacy instruction plan that ensures students benefit from independent effort and engagement.
