Technology and Practice in Geotechnical Engineering Adeyeri, Joseph B., 2014-09-30 Knowledge surrounding the behavior of earth materials is important to a number of industries including the mining and construction industries. Further research into the field of geotechnical engineering can assist in providing the tools necessary to analyze the condition and properties of the earth. Technology and Practice in Geotechnical Engineering brings together theory and practical application, thus offering a unified and thorough understanding of soil mechanics. Highlighting illustrative examples, technological applications, and theoretical and foundational concepts, this book is a crucial reference source for students, practitioners, contractors, architects, and builders interested in the functions and mechanics of sedimentary materials. *Development In Modern Africa* Martin S. Shanguhya, Toyin Falola, 2019-10-08 Development in Modern Africa: Past and Present Perspectives

contributes to our understanding of Africa's experiences with the development process. It does so by adopting a historical and contemporary analysis of this experience. The book is set within the context of critiques on development in Africa that have yielded two general categories of analysis: skepticism and pessimism. While not overlooking the shortcomings of development, the themes in the book express an optimistic view of Africa's development experiences, highlighting elements that can be tapped into to enhance the condition of African populations and their states. By using case studies from precolonial, colonial, and postcolonial Africa, contributors to the volume demonstrate that human instincts to improve material, social, and spiritual worlds are universal. They are not limited to the Western world, which the term and process of development are typically associated with. Before and after contact with the West, Africans have actively created institutions and values that they have actively employed to improve individual and community lives. This innovative spirit has motivated Africans to integrate or experiment with new values and structures, challenges, and solutions to human welfare that resulted from contact with colonialism and the postcolonial global community. The book will be of interest to academics in the fields of history, African studies, and regional studies.

Global Resources and the Environment Chadwick Dearing Oliver, Fatma Arf

Oliver, 2018-06-21 In the past few decades, sustainability of natural resources and the social and environmental issues that surround them have become increasingly topical. This multidisciplinary book discusses the complex relationships between society, natural resources, and the environment. Major resources including water, agriculture, energy, minerals, and forests are considered, as well as different facets of the environment including climate, landforms, and biodiversity. Each resource is discussed in the context of both environmental and socio-economic factors affecting their present and future distribution and demand. Presenting a balanced, comprehensive overview of the issues surrounding natural resources and sustainability, this accessible volume will be of interest to policy makers, resource managers, graduate students, and researchers in the natural and social sciences.

God and the History of the Universe Jarvis Streeter, 2016-03-22 The popular belief that a scientific understanding of reality is incompatible with a Christian one is simply wrong. Some Christian

understandings of reality do conflict with some scientific understandings But a thoroughly rational Christian understanding of the origin and history of the universe will be informed by the best scientific theories and the facts founded on them This book weaves a narrative of the origin and history of the universe from the perspective of contemporary science with a Christian understanding of God and of God's role in the origin and history of the universe At the center of this integrated narrative is the view that God who is pure unbounded Love is Creator the zest for life in the universe comes from God and God is the source of Truth Beauty and Goodness in the universe God is amazed and delighted at what God and the world has created God is saddened by ways creatures have fallen short of pure unbounded Love Truth Beauty and Goodness and God's pure unbounded Love keeps on trying to persuade all creatures toward Truth Beauty and Goodness
