

Cycles in Nature Study Guide

Matter moves between the environment and living things in all cycles of matter (water, carbon and nitrogen).

Water Cycle:

- **Evaporation** is a change of water from liquid to gas.
- **Condensation** is the change of water from gas to liquid.
- **Precipitation** is when water falls back to Earth in the form of rain, snow, sleet or hail.
- Most precipitation that falls to Earth's surface falls directly into oceans.
- Transpiration is when plants release water.
- Groundwater (water under the Earth's surface) is an important part of the water cycle.

Carbon Cycle:

- All organic (living) molecules contain carbon.
- Carbon is important to living things because it transports the material cells use for energy.
- Carbon from the environment becomes a part of living organisms through the process of photosynthesis.
- **Photosynthesis** is when plants use carbon dioxide from the air to make glucose (sugar).
- Most animals get the carbon they need by eating plants.

Epperson,2014-11-19 The United States differs from other developed nations in the extent to which its national bicycle transportation policy relies on the use of unmodified roadways with cyclists obeying the same traffic regulations as motor vehicles This policy known as vehicular cycling evolved between

1969 when the 10 speed boom saw a sharp increase in adult bicycling and 1991 when the American Association of State Highway and Transportation Officials adopted an official policy that on road bikeways were not desirable This policy resulted from a growing realization by highway engineers and experienced club cyclists that they had parallel interests the cyclists preferred to ride on highways because most bikeways were not designed for high speeds and pack riding and the highway engineers did not want to divert funding from roadways to construct bikeways Using contemporary magazine articles government reports and archival material from industry lobbying groups and national cycling organizations this book tells the story of how America became a nation of bicyclists without bikeways Integrating the Arts in Science Vivian
