To be a substance abuse counselor you must be compassionate and not judgmental in this type of field, as I took this course it has help prepared what to expect as I start my journey in the workforce. Before, I had chosen this field I had to rethink of how seriously I want to be in this field and why I choose to be in this field of work. I know that myself and other people that choose this field as well have been around family and own family that is going through and there are so much that we can learned and take back to help other people that is in substance use. Not, just myself learning in substance abuse, but also learned other types of abuse as well, and this has taught me on how to help other that is this type of situation. Since, I have took this course there was so much to learned in the area of substance use, its talk about so much I never thought that this pertained of what people do that is on drugs. As I sit in class I seriously think this is where I want to be it has help me focus on helping people due to the fact is that, I have been dealing with this for a long time with my ex-husband and see what drugs do there mind and there behavior, and therefore how it changes there whole demeaners. This gives me a motivation on helping people that is using.

The course has taught me the roles in each chapter and what is needed to become a good therapist or counselor. Each chapter talk about the models and the recovery approach, so you can learn and understand on how to solve and help with the problem that the client is having. in the class what I have learned from my professor, when she specifies in class you should not say that you have sympathy for people, you should empathy. This is my weakness always feeling the sympathy, now my strength is what I learned in class is to be able to help clients. This has taught me on how to gather information on client, on what is appropriate and not appropriate. In class learning about countertransference is that it could be in a negative or a positive, its can be difficult to encounter, its not easy especially when you try to counsel a client but instead you know that you try to encounter your own personal experiences. Countertransference is very difficult to understand, especially when you are counseling a client and you come into a conclusion that you have a similarity issue as the person you are counseling. By going to school in this field it teaches the knowledge, tools, and skills to use in the future to become a good counselor.

According, to multicultural in the counseling field you will get all form and shapes of different diversity of people that comes your ways. Being a good counselor we have to understand other people values and belief, although, you might have your own belief and you might have to keep it to yourself, because your belief and values its might be your client and you do not want to make them feel bad of what they belief in, even though you disagree we are not to ma
