Standards	Student abilities range between Pre-1 and 3 rd grade standards.					
Clear Targets	1st- I can learn and write down the date information and my personal information.	2nd- I can identify letters or sight words.	3rd- I can use fine motor skills to describe a holiday object.	4th- I can learn about new instruments and parts of music.	5th- I can roll dice, identify the amount, and locate the number.	7th- I can complete a chore to help my classroom to the best of my ability.
Input/ "Teacher Doer"	All tasks and activities will be modeled by a teacher or a peer modeler, unless the activity is for the purpose of program monitoring.					
Connection to Previous Learning	1st- Students are continuously working on identifying, writing, and/or writing their personal information as it fits well.	2nd- Students are using their knowledge of letters, sounds, and words.	3rd- Students will continue improving their fine motor skills.	4th- Students are connecting their knowledge of instruments, styles of music, and culture.	5th- Students are using their knowledge of numbers and counting.	7th- Students will be continuing to enhance their life skills by completing different chores weekly.
Activity Explanation	1st- Students will complete their morning binder (which includes handwriting, reading, personal info., and date the student is currently working on).	2nd- Students will be given either letters or sight words to identify by coloring.	3rd- Students will be working on their fine motor skills while painting a holiday picture with q-tips.	4th- Student will be exposed to new instruments and protocols about them by Mr. Alexander.	5th- Students will roll a die, count the dots, and find the amount on a sheet and cover it.	7th- Students will complete jobs such as: mop, vacuum, sharpen pencils, start choir, clean tables, collect trash, organize library, etc.
CPU	Teacher and peer modeler will check for understanding with the student(s) they are working with every 2-3 minutes (unless it is needed more frequently).					
Accommodations/ Modifications	1:1 will be typical for most students throughout each class period. Occasionally (but not often,) there may be a 2:1 situation, small group, whole group, or independent student learning. All of my students work with a continuous token system throughout the day. They identify what they are working for (snack, walk, break, music, etc.) and earn 1 token per activity. Once they have gotten 3 tokens, they earn the reward they were working for. Then, the cycle begins again as they begin working again. Some students may receive more than 1 token for an activity depending on how much work was required for that individual student. Multiple intelligences and sensory needs will be addressed. Some students utilize communication devices.

Understanding Multiage Education Sandra J. Stone,Kathleen G. Burriss,2019-04-30 Presenting a compelling case for changing our system of education from a graded curriculum centered approach to a multiage child centered approach Understanding Multiage Education is a comprehensive exploration of the philosophy and foundations of multiage education Veteran educators Stone and Burriss examine the why of multiage education exploring how multiage classrooms structure environment strategies and assessments unfold and complement the multiage philosophy and pedagogy Delineating the differences between a standard and a mixed age approach each chapter features Inside Insights short vignettes case studies examples of multiage in practice and discussion questions challenging readers to engage with the core concepts and examine how we might define success in a multiage classroom Designed for graduate level students of early childhood elementary and general education courses as well as experienced practitioners this is an essential guide for anyone interested in understanding the rationale implementation and benefits of multiage education *The Effective Special Education Teacher* Laurie U. deBettencourt,Lori A. Howard,2015-07-24 This comprehensive pedagogically rich guide aims to help teachers entering the rewarding field of special education become highly successful and competent The authors thirty plus years of experience interacting with teachers and learning their needs endows them with a deep understanding of important issues teachers encounter as well as their concerns about employing the best teaching methods The book s well structured easy to follow sections are devoted to developing collaborative relationships preparing individualized educational programs writing lesson plans selecting instructional and behavioral techniques and understanding the teacher evaluation methods in current use today Guidance is also provided for self reflection and formulating future goals Each chapter contains numerous vignettes rubrics templates strategies and stimulating activities **Statistics for Empowerment and Social Engagement**

Jim Ridgway,2023-03-10 This book is a remarkable achievement Gerd Gigerenzer This book offers practical approaches to working in a new field of knowledge Civic Statistics which sets out to engage with and overcome well documented and long standing problems in teaching quantitative skills The book includes 23 peer reviewed chapters written in coordination by an international group of experts from ten countries The book aims to support and enhance the work of teachers and lecturers working both at the high school and tertiary university levels It is designed to promote and improve the critical understanding of quantitative evidence relevant to burning social issues such as epidemics climate change poverty migration natural disasters inequality employment and racism Effective citizen engagement with social issues requires active

participation and a broad understanding of data and statistics about societal issues. However, many statistics curricula are not designed to teach relevant skills nor to improve learners' statistical literacy. Evidence about social issues is provided to the public via print and digital media, official statistics offices, and other information channels, and a great deal of data is accessible both as aggregated summaries and as individual records. Chapters illustrate the approaches needed to teach and promote the knowledge, skills, dispositions, and enabling processes associated with critical understanding of Civic Statistics presented in many forms. These include statistical analysis of authentic multivariate data, use of dynamic data visualisations, deconstructing texts about the social and economic well-being of societies and communities. Chapters discuss the development of curricula and educational resources, use of emerging technologies and visualizations, preparation of teachers and teaching approaches, sources for relevant datasets and rich texts about Civic Statistics, ideas regarding future research, assessment, collaborations between different stakeholders, and other systemic issues.
