a publisher came a calling to buy the rights to it Now I'd like to take my writing to the next level That's where you come in Consider this book as both my job application and resume for a position on your editorial staff Everything here on the back cover is my cover letter to you I leave you with one simple question When do I start **Intelligent Systems'2014** P. E. Peters, 2021-03-09 Invoking a concept as simple as it is brilliant F. E. Peters has taken the basic texts of the three related and competitive religious systems we call Judaism Christianity and Islam and has juxtaposed them in a topical and parallel arrangement according to the issues that most concerned all these children of Abraham Through these extensive passages and the author's skillful connective commentary the three traditions are shown with their similarities sometimes startlingly underlined and their well known differences now more profoundly exposed What emerges from this unique and ambitious work is a panorama of belief practice and sensibility that will broaden our understanding of our religious and political roots in a past that is by these communities' definition still the present The hardcover edition of the work is bound in one volume and in the paperback version the identical material is broken down into three smaller but self contained books The first From Covenant to Community includes texts and comments on the covenant and early history of the Chosen People and their post Exilic reconstruction the career and message of the Messiah Jesus and the Prophet Muhammad the concept of holiness and of a kingdom of priests and finally the notions of church and state and the state as a church Throughout the work we hear an amazing variety of voices some familiar some not all of them central to the primary and secondary canons of their own tradition alongside the Scriptural voice of God are the words of theologians priests visionaries lawyers rulers and the ruled The work ends as does the same author's now classic Children of Abraham in what Peters calls the classical period that is before the great movements of modernism and reform that were to transform Judaism Christianity and Islam Bookseller, Newsdealer and Stationer, 1912 **The Bookseller, Newsdealer and Stationer**, 1912 **RETRACTED BOOK: Control Design of Multiagent Discrete-Time Systems** Magdi Sadek Mahmoud, Bilal J.
