

PRELIMINARY INVESTIGATION REPORT

Subject: CCRI Athletic Department

INTRODUCTION:

The JAMED Co. has been retained by Mr. Louis Pullano, the Director of Athletics for the Community College of Rhode Island, in order to review the daily operations of the Athletic Department. The scope of this preliminary investigation is to define both the current and future workflow needs of the Department. Upon completion of the preliminary investigation, JAMED Co. will provide the Athletic Department with a detailed analysis of all departmental activities and recommendations for future enhancements, both technical and administrative, for consideration.

SYSTEMS REQUEST SUMMARY:

Currently, the Athletic Department tracks the following information: academic eligibility and statistical information representing both team and individual accomplishments. The Department has the ability to collect viable data. The underlying problem that was initially presented in the system request and later reinforced during a series of interviews (Appendix A) conducted by JAMED Co. is the lack of a collection system that is easy to use, efficient at tracking athletic information, and scalable for future web interaction.

Criminal Investigation Michael J. Palmiotto, Michael Palmiotto, 2004 Michael Palmiotto's Criminal Investigation is often described as one of the most realistic and accessible texts in the study of Criminal Justice. In this Third Edition, which has been substantially updated from previous editions, Palmiotto provides greater coverage of case screening, more sources of information, and in-depth analyses of special investigations.

Police Officer's Handbook Robert Stering, 2005 Law Enforcement Policing Security

Guide for Conducting Forensic Investigations of Highway Pavements (with supplemental material on CD-ROM) Gonzalo R. Rada, 2013 TRB's National Cooperative Highway Research Program Report 747. The Guide for Conducting Forensic Investigations of Highway Pavements explores a process for conducting forensic investigations of pavements that is designed to help understand the reasons behind premature failures or exceptionally good performance. The process also allows for the collection of data for use in developing or calibrating performance prediction models. The report includes example forms and checklists for use during the conduct of an investigation. These forms can be modified to suit the particular requirements and procedures for the agency. The example forms are included with the print version of the report in CD-ROM format.

Report Writing for Criminal Justice Professionals Larry S. Miller, John T. Whitehead, 2010-11-24. So much of the process of criminal justice depends on good documentation, and criminal justice professionals can spend as much as 50-75% of their time writing up administrative and research reports. Much of the legal process depends on the careful documentation that records crucial information. And yet most of these law enforcement, security, corrections, and probation and parole officers have not had adequate training in how to provide a well-written, accurate, brief, and complete report. *Report Writing for Criminal Justice Professionals* provides practical advice on report writing with specific writing samples and guidelines. The authors go beyond the routine English grammar approach to deal with the difficult but often ignored problem of documentation that will hold up in court. Important concepts are emphasized with related checklists, forms, and pull-out chapter tests. The material is organized into three sections: The Nature of Report Writing, The Mechanics of Report Writing, and The Modernization of Report Writing. **NEW TO THIS EDITION** Updated and revised with new material on forensics and scientific reports, crime reporting, common errors in forensic reports, and automation of report writing. Appendixes are thoroughly revised with new examples of reporting forms, worksheets, and reports, including a sample forensic lab report and presentence investigation report. Text complemented by numerous examples, sample reports, and tools. Each chapter concludes with a sample test for the reader to self-evaluate learning. Appendixes include model reports, examples of agency instructions for completing report forms, and selected readings.

Managing Criminal Investigations Peter B. Bloch, Donald R. Weidman, 1975. Prescriptive package designed to assist police managers to improve the success of their departments' criminal investigation efforts. While skilled detectives are often essential, there are a number of new methods police managers can adopt to improve investigative success. Management

issues addressed include budgeting and allocating resources improving relationships with the prosecutor interacting with the public especially victims and witnesses improving relationships between investigators and patrol officers decentralizing detective assignments particularly in neighborhood team policing approaches using civilian employees for investigative tasks assigning personnel supervising and training investigative personnel improving investigative procedures and conducting investigative activities not related to specific cases The suggestions are based on an examination of the investigative practices of six selected police departments a review of the relevant literature and recent experiments in other departments and the observations and conclusions of a panel of experienced police officials It is especially interesting to note that many of the ideas require little or no additional resources This report is written primarily for police chiefs and heads of detective units but should also be of interest to other police officials and to local government officials such as city managers
