The illustrations make this book like no other and offers solutions to problems that you face from rigging and knot tying to drapery folding and the most detailed information on metal framing available. Written for the community theatre worker who has to be a jack of all trades and the student who needs to learn the fundamentals, respected author John Holloway teaches in a way that covers the necessities but doesn't bog you down with heavy language and boring verbosity. New features in this book range from expanded information on metal framing and foam construction to brand new elements such as a chapter on stage management and an extremely helpful Website with videos meant to go along with the informative section on projects. These videos take you from the drawings and descriptions in the book to the video instructions that will help you learn visually.
