April 2008 The EXCEL HSC Chemistry guide is directly linked to the syllabus with every single dot point of the HSC Chemistry syllabus appearing in the margin of the book. You can write in the guide so your study is focused and your notes are structured. This guide comes in a brand new format that makes even better use of your study time up to date coverage of the core topics plus 3 Option topics Industrial Chemistry Shipwrecks Corrosion and Conservation and Forensic Chemistry. This guide is organised just like the HSC syllabus so the students learn to section the theoretical part is under routine headings and the students section the practical part is under headings like First hand Second hand and Investigations and Problem Solving. This way you will be able to see at a glance what the theoretical and practical work is all main headings in each chapter 1 1 2 1 etc are directly from the syllabus word for word. This way you can easily match the Excel guide to the syllabus an alphabetical list of all the key definitions and concepts you should know from each chapter. An efficient way of learning all the definitions in one go chapter syllabus checklist with every single dot point listed in checklist form for each chapter. A fantastic way of testing that you know all the work hundreds of key concept questions with answers. Questions that test you recall of knowledge in each chapter HSC type questions for every section in each chapter with clock icons to tell you how much time you will have to answer the questions in the HSC. This way you can test yourself on HSC type questions under HSC type time pressure an examiner maximiser feature ticks to show the mark distribution and answers to all HSC type questions. All you need to answer HSC type questions two sample HSC papers with an examiner maximiser feature plus answers. Not one but two up to date sample papers the Excel syllabus summary notes a detachable section at the end of the guide where every single dot point of each chapter is summarised for you. A comprehensive and compact summary of the whole course in 32 pages.

Chemical Reaction Technology Dmitry Yu. Murzin, 2015-05-19 The book discusses the sciences of operations converting raw materials into desired products on an industrial scale by applying chemical transformations and other industrial technologies Basics of chemical technology combining chemistry physical transport unit operations and chemical reactors are thoroughly prepared for an easy understanding.
