and Introductory Algebra Joanne S. Lockwood,Richard N. Aufmann,2013-02-12 As in previous editions the focus in PREALGEBRA INTRODUCTORY ALGEBRA 3E International Edition remains on the Aufmann Interactive Method AIM Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems Student engagement is crucial to success Presenting students

with worked examples and then providing them with the opportunity to immediately solve similar problems helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective which helps to reinforce key concepts and promote skill building. This clear objective based approach allows students to organize their thoughts around the content and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Third Edition also features a new design enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow.

Books a la Carte are unbound, three-hole punch versions of the textbook. With this revision, Marvin Bittinger continues to focus on building success through conceptual understanding while also supporting students with quality applications, exercises, and new review and study materials to help them apply and retain their knowledge. This package contains PREALGEBRA AND INTRODUCTORY ALGEBRA 3e, a la Carte edition with MyMathLab, MyStatLab Student Access Kit.
