Across Cultures is a collection of nine papers given at the 21st BAS British and American Studies conference held in Timișoara in May 2011. They focus on translation problems that may arise at various levels from word to translation unit when rendering a literary, legal, economic or hybrid text genre into a second language as well as on some of the methodological issues raised by this process. The papers attempt to give answers to questions including why or what cultural elements are important when mediating between languages or cultures. What equivalence can be found for certain cultural lexical items for certain collocations or for business metaphors in the target language. The book also investigates the translation of 21st century Newspeak as well as cases of lexical gaps, reveals similarities and differences in the linguistic expression of various concepts and suggests possible ways of dealing with certain difficult translation problems. *Words* Dale D.

Johnson, 2018-04-17. Written by respected authorities in the fields of education and literacy studies. *Words* The Foundation of Literacy is a groundbreaking book for teachers, administrators and education students. Dale and Bonnie Johnson present a fresh, inspiring reminder of why studying language from word origins to word structure is such a vital first step in the development of students' vocabulary, literacy, writing skills and overall ability to learn. At a time when high stakes testing has squeezed substance from many curricula, Johnson and Johnson provide ways to enhance students' understanding, interest and appreciation of language and all its subtleties. *Words* explores how meaning in language is created by the use and interrelationships of words, phrases and sentences, their denotations, connotations, implications and ambiguities. From birth, most children exhibit a natural interest in language, its sounds, nuances and unpredictable qualities. It is important to sustain, stimulate and recapture that natural interest in the classroom, and *Words* provides a multitude of creative and practical techniques for doing so. **Carl Jung and Alcoholics Anonymous** Anonymous

Ian McCabe, 2018-03-29. The author visited the archives of the headquarters of A.A. in New York and discovered new communications between Carl Jung and Bill Wilson. For the first time, this correspondence shows Jung's respect for A.A. and in turn, its influence on him. In particular, this research shows how Bill Wilson was encouraged by Jung's writings to promote the spiritual aspect of recovery as opposed to the conventional medical model, which has failed so abysmally. The book overturns the long-held belief that Jung distrusted groups. Indeed, influenced by A.A.'s success, Jung gave complete and detailed instructions on how the A.A. group format could be developed further and used by general neurotics. Wilson was an advocate of treating some alcoholics with LSD in order to deflate the ego and induce a spiritual experience. The author explains how alcoholism can be diagnosed and understood by professionals and the lay person by examining the detailed case histories of Jung; the author gives graphic examples of its psychological and behavioural manifestations. **Different Every Time** Marcus O'Dair, 2015-09-01. Robert Wyatt started out as the drummer and singer for Soft Machine, who shared a residency at Middle Earth with Pink Floyd and toured America with the Jimi Hendrix Experience. He brought a jazz mindset to the 1960s rock scene, having honed his drumming skills in a shed at the end of Robert Graves' garden in Mallorca, Spain. Wyatt's life took an abrupt turn in 1973 when he fell from a fourth floor
