Department of Science and Art, National Art Library (Great Britain), 1870      History of Magic and Experimental Science (Vol. 1&2) Lynn Thorndike, 2023-12-26 Lynn Thorndike's seminal work *History of Magic and Experimental Science Volumes 1 2* is a groundbreaking exploration of the intricate interplay between magic alchemy and the nascent field of experimental science from antiquity to the Renaissance Thorndike employs a meticulous historical approach blending rigorous scholarship with an engaging narrative style that brings to life the evolution of scientific thought The two volumes cover a spectrum of practices and beliefs dissecting how magical traditions laid the groundwork for what would eventually become modern scientific inquiry thus situating magic at the crux of intellectual history Thorndike a prominent historian of science in the early 20th century drew on his extensive background in both philosophy and history to illuminate the often overlooked connections between magic and science His deep interest in the historical roots of scientific practices coupled with a conviction that understanding these roots is crucial for comprehending modern science propelled him to undertake this ambitious project His work challenges the prevailing narrative that dismisses magic as mere superstition instead arguing for its essential role in shaping scientific minds This two volume set is invaluable for scholars students and anyone intrigued by the foundations of scientific thought Thorndike's intricate narrative not only enriches our understanding of history but also encourages readers to reassess the boundaries between magic and science It is a must read for those who wish to grasp the profound interrelation of cultural beliefs and scientific advancement      The Caxton Head Catalogue James Tregaskis (Firm), 1913

**A Century of Fiction in The New Yorker** New Yorker Magazine Inc, 2025-02-04 Edited by The New Yorker s fiction editor Deborah Treisman a celebratory selection from one hundred years of short stories in the magazine which has been the most influential and important showcase for the form and has launched dozens of stellar careers in fiction There is simply no A Z like the alphabet of fiction writers who have appeared in the pages of The New Yorker in the last hundred years The book boasts inarguable classics like Salinger s A Perfect Day for Bananafish Annie Proulx s Brokeback Mountain and Shirley Jackson s The Lottery alongside stunners to be rediscovered Some stories defined a moment or a now lost world Isaac Bashevis Singer s The Cafeteria others showed us a whole new way fiction could sound and feel The Red Girl by Jamaica Kincaid With this vivid selection Treisman showcases how our fiction has changed over time and reminds us that past literary fashions continue to ripple outward in the fiction we love today What does a Donald Barthelme mean to the craft of short

fiction now What will a Yiyun Li mean to the next generation of readers and writers This exquisite tour of the form as practiced at its highest level will leap directly into the hearts of readers of all ages all stripes and is a beautiful tribute to the magazine's influence on our literary culture over the last century *Humanism and Protestantism in Early Modern English Education* Ian Green, 2016-05-13 This volume is the first attempt to assess the impact of both humanism and Protestantism on the education offered to a wide range of adolescents in the hundreds of grammar schools operating in England between the Reformation and the Enlightenment By placing that education in the context of Lutheran Calvinist and Jesuit education abroad it offers an overview of the uses to which Latin and Greek were put in English schools and identifies the strategies devised by clergy and laity in England for coping with the tensions between classical studies and Protestant doctrine It also offers a reassessment of the role of the godly in English education and demonstrates the many ways in which a classical education came to be combined with close support for the English Crown and established church One of the major sources used is the school textbooks which were incorporated into the English Stock set up by leading members of the Stationers Company of London and reproduced in hundreds of thousands of copies during the seventeenth and eighteenth centuries Although the core of classical education remained essentially the same for two centuries there was a growing gulf between the methods by which classics were taught in elite institutions such as Winchester and Westminster and in the many town and country grammar schools in which translations or bilingual versions of many classical texts were given to weaker students The success of these new translations probably encouraged editors and publishers to offer those adults who had received little or no classical education new versions of works by Aesop Cicero Ovid Virgil Seneca and Caesar This fascination with ancient Greece and Rome left its mark not only on the lifestyle and literary tastes of the educated elite but also reinforced the strongly moralistic outlook of many of the English laity who equated virtue and good works with pleasing God and meriting salvation *Giuseppe Verdi* Gregory W.
