Enlightenment secular societies By widening the lens of analysis to include a body of knowledge best accessed through Orthodox Christian devotional culture The Covenant's Veil offers an interpretation that challenges the reader to adopt a novel understanding of these well established ideas The multiple complex ways that the covenant idea appears as ideas idioms customs symbols and articulations in the lifeworld of Ethiopian Orthodox are the starting point for The Covenant's Veil Ethiopia's story of the covenant is a domain of nested reference points that inspires celebrants through their devotional activities to expand and elaborate upon a network of meanings Covenant refractions within Ethiopian Orthodox devotional culture not only demonstrate the established pattern of magnifying spiritual importance through symbolic similes and analogic pairings but perform a vital function for keeping traditional knowledge alive and current Detailed ethnographic material arranges devotional activities such as mahaber rituals of communing and processions of tabots on feast days It describes habits of making vows presenting oneself at church and telling stories of saints and their covenants Thinking about the covenant concept as refracting the bending motion of points encountering a common surface is a way to conceive how these reference points reveal a connective thread what is theorized as an Ethiopian Orthodox method of elaboration Identifying when and where elaboration of tradition is happening provides an opportunity to demonstrate how Orthodox Christianity is integral to the lives and actions of its faithful By reframing covenant as expanding beyond Ethiopian religious and political exceptionalism The Covenant's Veil provides us with a timely reappraisal of this concept in light of increased social fragmentation and the urgency for negotiating harmony in a country with many forms of diversity
