5G Mobile Communications Saad Asif, 2018-07-20 This book will help readers comprehend technical and policy elements of telecommunication particularly in the context of 5G. It first presents an overview of the current research and standardization practices and lays down the global frequency spectrum allocation process. It further lists solutions to accommodate 5G spectrum requirements. The readers will find a considerable amount of information on 4G LTE Advanced, LTE Advance Pro, 5G NR New Radio transport network technologies, 5G NGC Next Generation Core, OSS Operations Support Systems network deployment and end-to-end 5G network architecture. Some details on multiple network elements and products such as 5G base station small cells and the role of semiconductors in telecommunication are also provided. Keeping trends in mind, service delivery mechanisms along with state-of-the-art services such as MFS mobile financial services, mHealth mobile health and IoT Internet of Things are covered at length. At the end, telecom sector's burning challenges and best practices are explained which may be looked into for today's and tomorrow's networks. The book concludes with certain high-level suggestions for the growth of telecommunication particularly on the importance of basic research, departure from ten-year evolution cycle and having a 20-30 year plan. Explains the conceivable six phases of mobile telecommunication's ecosystem that includes R/D, standardization, product, network, device, application, development and burning challenges and best practices. Provides an overview of research and standardization on 5G. Discusses solutions to address 5G spectrum requirements while describing the global frequency spectrum allocation process. Presents various case studies and policies. Provides details on multiple network elements and the role of semiconductors in telecommunication. Presents service delivery mechanisms with special focus on IoT.

Customer-Driven Disruption Suman Sarkar, 2019-09-03 Businesses worry about new technologies but customers are the ultimate disruptors. Suman Sarkar offers bold strategies for making sure you understand your customers and keep up with their ever-changing needs. Disruption: the brutal roiling of markets, the decline of long-established brands and products, and the rise of new upstarts drives business failure and success. Most people think technology causes disruption but technology merely enables it. Changing customer needs cause disruptions and too many businesses get caught unaware. Suman Sarkar offers proven strategies that will enable any business to stay radically close to its customers and address their evolving needs. He argues that businesses need to focus on existing customers first; research shows they're likely to spend more and are more profitable than new customers. Personalization is becoming important for the newer generations in both developed and developing markets, so Sarkar describes approaches to make them cost-effective. In our era of instant gratification, customers want what they want now. Sarkar explains how you can develop and deliver products and services faster than ever. And since a few bad Yelp reviews, social media posts or angry tweets from customers can ruin you, Sarkar shows how to proactively make sure the quality of your products and services stays better than that of your competitors. The key to survival in this era of changing customer needs is to focus on and address them.

quickly so customers don't switch to the competition. Drawing on his experiences with leading companies worldwide, Sarkar offers five strategies and techniques that will keep you ahead of the curve. *Service Excellence in Tourism and Hospitality* K. Thirumaran, Dirk Klimkeit, Chun Meng Tang, 2021-01-20. Service operations management in the tourism and hospitality industry requires a high level of coordination, communication, and facilitation to satisfy visitors. In all of these activities, service excellence means a lot to visitors in terms of their experience, and to the business, it means repeat customers and word of mouth marketing. Based on fresh empirical evidence from the field, this book captures the different approaches and challenges to service excellence in the Asian tourism and hospitality industry. Focusing on hotels, attractions, transport providers, and other segments in tourism and hospitality, this book presents new case studies, underlining and detailing global and local travel industry practices. The book is meant as a reference and supplementary reading for students, researchers, and industry practitioners.

Digital Analytics Applications for Sustainable Training and Education Kiran Sood, Prateek Kalia, Simon Grima, Aryan Chaudhary, 2024-11-01. Digital analytics is an emerging new trend used in education to measure, collect, analyze, and report on data about learners and their contexts and to understand and optimize learning and learning environments. Taking into consideration the UN's Sustainable Development Goal 4, which aims to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all, this new book looks at digital technologies as a means to foster sustainable educational innovations for improving the teaching, learning, and assessment from K-12 to higher education. It demonstrates how artificial intelligence, deep learning, cloud computing, big data, and machine learning can be used to assess, evaluate, record, and predict student progress, participation, performance, personalization, and empowerment in academic and curricular activities.
