Curriculum Windows Thomas S. Poetter,Kelly Waldrop,Tasneem Amatullah,Cleighton Weiland,Jody Googins,Vanessa Winn,2017-04-01 Curriculum Windows What Curriculum Theorists of the 1990s Can Teach Us about Schools and Society Today is an effort by students of curriculum studies along with their professor to interpret and understand curriculum texts and theorists of the 1990s in contemporary terms The authors explore how key books authors from the curriculum field of the 1990s illuminate new possibilities forward for us as scholar educators today How might the theories practices and ideas wrapped up in curriculum texts of the 1990s still resonate with us allow us to see backward in time and forward in time all at the same time How might these figurative windows of insight thought ideas fantasy and fancy make us think differently about curriculum teaching learning students education leadership and schools Further how might they help us see more clearly even perhaps put us on a path to correct the mistakes and missteps of intervening decades and of today The chapter authors and editor revisit and interpret several of the most important works in the curriculum field of the 1990s The book s Foreword

Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There's no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content
