Pite,2025-10-02 Edward Thomas 1878 1917 is a renowned poet Until recently his prose writing has by comparison been
neglected and very often dismissed by critics Thanks not least to the multi volume new edition being published by OUP gen
eds Guy Cuthbertson and Lucy Newlyn this body of work is being re evaluated This new study by Ralph Pite forms part of
that undertaking it is the first to consider Thomas s prose on its own terms independently of the poetry that it preceded By
considering all of Thomas s prose work in its wide variety of genres nature writing literary criticism fiction autobiography
and by drawing for the first time on the whole range of his reviewing this study transforms understanding of his development
The continuity of his critical perspective emerges his Celtic loyalties their nature and their depth are revealed both the
complexity and the conviction of his politics are brought to light alongside his receptive alertness to innovative writing and
his own originality and daring as a writer The view of his achievement generated by his interwar reception itself the outcome
of societal mourning and griefwork is challenged so is the critical consensus regarding the quality of his prose and the
reasons behind its changing styles across Thomas s career From all of this it becomes clear moreover how powerfully
Thomas s work speaks in the contemporary moment of environmental and climate breakdown Thomas s prose seeks
constantly to articulate a relationship of absolute interdependence between human beings and the natural world His writing
is so exploratory and original because Thomas seeks to address the problematic reality that interdependence this truth of
humanity s place in natural world is perceptible to Western eyes only as mystery Resources in Education ,1999
