Readings In Synthetic Christian Theology Eastern Sources:

Readings in Synthetic Christian Theology Jeffrey Mackey, 2014-12-04 This is a volume of dynamic quotations from the Eastern Fathers of the Church and other theologians of the East as well It makes an excellent introduction to Eastern Orthodoxy for laity and also a wonderful reader as a first year seminary text **Orthodox Readings of Aquinas** Marcus Plested, 2012-11 The foremost Roman Catholic theologian of the middle ages Thomas Aquinas was hugely popular in the last days of the Orthodox Byzantine Empire in contrast to his largely negative reception by later Orthodox commentators This book is the first to explore the long history of Orthodox fascination with Aquinas **Called to be the Children of God** Carl E. Olson, Fr. David Vincent Meconi, S.J., 2016 This book gathers fourteen Catholic scholars to present examine and explain the often misunderstood process of deification The fifteen chapters show what becoming God meant for the early Church for St Thomas Aquinas and the greatest Dominicans and for St Francis and the early Franciscans This book explains how this understanding of salvation played out during the Protestant Reformation and the Council of Trent It explores the thought of the French School of Spirituality various Thomists John Henry Newman John Paul II and the Vatican Councils and it shows where such thinking can be found today in the Catechism of the Catholic Church No other book has gathered such an array of scholars or provided such a deep study into how humanity's divinized life in Christ has received many rich and various perspectives over the past two thousand years This book seeks to bring readers into the central mystery of Christianity by allowing the Church's greatest thinkers and texts to speak for themselves demonstrating how becoming Christ like and the Body of Christ on earth is the only ultimate purpose of the Christian faith Theandric and Triune Ty Kieser, 2024-01-25 Describing Jesus as an agent of divine actions or as one who possesses human agency is commonplace in christological discussions Yet these discussions often wade in a shallow understanding of the terms meanings and the theological implications of such claims For example while many theologians who are committed to the definition of Chalcedon consider Jesus one agent we might ask if this implies that the triune God comprises three agents Or if Christ possesses singular agency how are his divinity and humanity operative in his actions In response this work draws from the theology of John Owen and advancements in philosophy of action in order to offer an account of divine and human agency in christological action from within the Reformed tradition It provides clarity to the christological and trinitarian uses of the language of agent agency in Christ and attends to the theological esp trinitarian entailments therein While at first glance there may appear to be internal inconsistencies with accounts that subscribe to classical trinitarianism and Reformed Christological agency this book argues that Owen helps us recover an understanding of christological agency that is internally coherent and theologically prudent As such the Reformed tradition can articulate Christological agency in a way that is coherent with the testimony of Scripture the ecumenical councils and classical trinitarianism while contributing to contemporary theological discussions The case not only provides terminological clarity and theological coherence but also inclines Christians to

appreciate the trinitarian love of God in Christ's action and the human sympathy of Christ for his people Readings in the Philosophy of Religion Andrew Eshleman, 2008-04-28 Offers an array of Western and non Western theistic and non theistic religious thought Combining key readings by contemporary philosophers with pivotal historical texts this anthology brings together some of the best work in both Western philosophy of religion and Eastern thought including selections on Hinduism Buddhism and Confucianism Deification and Modern Orthodox Theology Petre Maican, 2023-04-24 Modern Orthodox identity is deeply interwoven with the notion of deification or union with God For some theologians deification represents the lens through which most if not all theological questions should be engaged In this volume Petre Maican undertakes the task of critically examining the extent to which deification informs the main debates inside Orthodox theology focusing on four essential loci anthropology the Trinity epistemology and ecclesiology Maican argues that while deification remains central to anthropology and the Orthodox understanding of the Trinity it seems less relevant in the areas of ecclesiology and complexifies the Orthodox approach to Scripture and Tradition **Modern Orthodox Theology** Paul Ladouceur, 2019-02-21 Modern Orthodox theology represents a continuity of the Eastern Christian theological tradition stretching back to the early Church and especially to the Ancient Fathers of the Church This volume considers the full range of modern Orthodox theology The first chapters of the book offer a chronological study of the development of modern Orthodox theology beginning with a survey of Orthodox theology from the fall of Constantinople in 1453 until the early 19th century Ladouceur then focuses on theology in imperial Russia the Russian religious renaissance at the beginning of the 20th century and the origins and nature of neopatristic theology as well as the new theology in Greece and Romania and tradition and the restoration of patristic thought Subsequent chapters examine specific major themes God and Creation Divine humanity personhood and human rights The Church of Christ Ecumenical theology and religious diversity The Christification of life Social and Political Theology The Name of God conflict The ordination of women The volume concludes with assessments of major approaches of modern Orthodox theology and reflections on the current status and future of Orthodox theology Designed for classroom use the book features case studies a detailed index a list of recommended readings for each chapter

The Sculptor and his Stone Chrysostomos, 2017-01-26 This book argues for the inseparability of classical Hellenism from the Greek patristic tradition from a distinctly Eastern Orthodox perspective Postulating a common striving for truth in both domains it places emphasis on the contributions of the ancients and Greek paideia to Christian learning and culture In the spirit of the late Werner Jaeger the essays contained in the volume provide a fruitful strategy for looking anew at the Greek classical world and Christianity through the eyes of the Greek Fathers the direct inheritors of the ancient Greek worldview Collectively the author and contributors excellently demonstrate that conflated with the visionary insights of the Jewish prophets and of Jewish messianism the wisdom of the ancients served to pave the way for the unfolding of the fullness of Christian teaching and its spiritually enlightening revelation *Journal of Biblical and Theological Studies, Issue 2.2*

Contemporary Political Philosophy and Religion Camil Ungureanu, Paolo Monti, 2017-12-12 What is the place of religion in a pluralist democracy? The continuous presence of religion in the public sphere has raised anew normative and practical issues related to the role of religion in a democratic polity, generating spirited political debates in Western and non-Western contexts. *Contemporary Political Philosophy and Religion* provides an advanced introduction to and a critical appraisal of the major schools of political thought with a focus on the relationship between democracy and religion. Key features of this book include: Analyses of different political traditions: liberalism, republicanism, deliberative democracy, feminism, postmodernism, multiculturalism, and interculturalism. Critical discussions of key contemporary philosophers such as John Rawls, Jürgen Habermas, Richard Rorty, Charles Taylor, Susan Moller Okin, Martha Nussbaum, Will Kymlicka, Chandran Kukathas, and Bhiku Parekh. A pluralist approach that questions the strict divide between analytical and continental political philosophy. Discussion on the place of religion in politics from multiple perspectives by drawing on a plurality of political contexts, both Western and non-Western. Analyses of legal and political cases related to different religious traditions, for example, Islam, Confucianism, Buddhism, Christianity, and Hinduism. This comprehensive text will be of great use to students of religion and politics in the fields of political and legal theory and religious and theological studies, while also offering critical insights and arguments that will be of interest to the experts in the field.

The Patristic Witness of Georges Florovsky Georges Florovsky, 2019-09-19 Georges Florovsky (1893-1979) was one of the most prominent Orthodox theologians and ecumenists of the twentieth century. His call for a return to patristic writings as a source of modern theological reflection had a powerful impact not only on Orthodox theology in the second half of the twentieth century but on Christian theology in general. Florovsky was also a major Orthodox voice in the ecumenical movement for four decades, and he is one of the founders of the World Council of Churches. This book is a collection of major theological writings by George Florovsky. It includes representative and widely influential but now largely inaccessible texts, many newly translated for this book, divided into four thematic sections: Creation, Incarnation, and Redemption; The Nature of Theology; Ecclesiology and Ecumenism; and Scripture, Worship, and Eschatology. A foreword by Metropolitan Kallistos Ware presents the theological vision of Georges Florovsky and discusses the continuing relevance of his work both for Orthodox theology and for modern theology in general. The introduction by the Editors provides a theological and historical overview of Florovsky's theology in

the context of his biography The book includes explanatory notes translation of patristic citations and an index **Genesis 1-11:26: The Christian Standard Commentary** Kenneth A. Strawn, 2023-05-30 My Lord There is no one like you among the gods Attempting to describe the nature of God often prompts the exclamation of the psalmist that God is unlike anyone or anything else And yet the claim is not simply the overflow of an adoring heart God's incomparability is a truth lodged deep within Christian Scripture In The Incomparable God Old Testament scholar Brent Strawn offers thoughtful insight into this theological mystery This volume collects eighteen of Strawn's most provocative essays on the nature of God several of which are published for the first time here Strawn covers the following topics the complex portrayal of God in Genesis God's mercy in Exodus poetic description of God in the Psalms the Trinity in both testaments pedagogy of the Old Testament integration of faith and scholarship Encompassing close readings of Scripture biblical theological argument and considerations of praxis The Incomparable God is essential reading for Old Testament scholars and students **Multisensory Human** Kathy L.
