

Protein Use

These types of eating work best when you're looking to lose weight or build muscle. They're also good for people with diabetes, heart disease, and other chronic conditions. But if you're not used to eating this way, it can be a bit tricky at first. So, if you're looking to make a change, start small. Try adding a bit more protein to your meals, or swapping out some carbs for protein. And if you're not sure where to start, a dietitian can help you figure it out.
