Evaluation of Rural Health Programme in Punjab Asif Saeed Khan,Muhammad Jameel Khan,1993 *Pakistan* International Monetary,International Monetary Fund. Fiscal Affairs Dept.,2023-11-17 Pakistan is working to improve its public investment management PIM to support economic growth and service delivery and make public infrastructure more sustainable and resilient to climate change This assessment applies the IMF s Public Investment Management Assessment PIMA framework including the Climate PIMA module It highlights some of the important efforts made in recent years to strengthen PIM and identifies scope for further strengthening of key institutions In a context where fiscal space is tight and climate action urgent it recommends a number of targeted actions to move reforms forward **Performance Audit Manual** Audit Office of New South Wales,New South Wales. Audit Office,1995 *Manual on Fiscal Transparency* International Monetary Fund. Fiscal Affairs Department,2001 In preparing the Manual a number of points have been taken into account First the Code is being implemented on a voluntary basis To promote an appreciation of the rationale for the Code and an understanding of its fiscal transparency requirements the Manual sets out in detail the principles and practices included in the Code However because of the complexity of fiscal management systems the Manual does not provide

comprehensive directions on how all the good practices are to be put in place. Instead, it contains numerous references and website addresses that can assist with the practical implementation of the Code. Second, fiscal transparency is only one aspect of good fiscal management and care is needed to distinguish fiscal transparency from two other key aspects, namely the efficiency of fiscal policy and the soundness of public finances. Third, diversity of institutional backgrounds and capacity constraints to improving fiscal management are clearly recognized. For this reason, the Code is not a best practice standard. Rather, it is a set of good practices that can be implemented by most countries over the medium to longer term.
