Becoming Jane Jacobs Peter L. Laurence,2016-01-29 Jane Jacobs is universally recognized as one of the key figures in American urbanism The author of The Death and Life of Great American Cities she uncovered the complex and intertwined physical and social fabric of the city and excoriated the urban renewal policies of the 1950s As the legend goes Jacobs a housewife single handedly stood up to Robert Moses New York City s powerful master builder and other city planners who sought first to level her Greenwich Village neighborhood and then to drive a highway through it Jacobs s most effective weapons in these David versus Goliath battles and in writing her book were her powers of

observation and common sense What is missing from such discussions and other myths about Jacobs according to Peter L Laurence is a critical examination of how she arrived at her ideas about city life Laurence shows that although Jacobs had only a high school diploma she was nevertheless immersed in an elite intellectual community of architects and urbanists Becoming Jane Jacobs is an intellectual biography that chronicles Jacobs s development influences and writing career and provides a new foundation for understanding Death and Life and her subsequent books Laurence explains how Jacobs s ideas developed over many decades and how she was influenced by members of the traditions she was critiquing including Architectural Forum editor Douglas Haskell shopping mall designer Victor Gruen housing advocate Catherine Bauer architect Louis Kahn Philadelphia city planner Edmund Bacon urban historian Lewis Mumford and the British writers at The Architectural Review Rather than discount the power of Jacobs s critique or contributions Laurence asserts that Death and Life was not the spontaneous epiphany of an amateur activist but the product of a professional writer and experienced architectural critic with deep knowledge about the renewal and dynamics of American cities **The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces** ,1884 **Books in Print Supplement** ,2002

Bristol,2022-10-15 Teachers of Color and Indigenous Teachers are underrepresented in public schools across the United States of America with Black Indigenous and People of Color making up roughly 37% of the adult population and 50% of children but just 19% of the teaching force Yet research over decades has

indicated their positive impact on student learning and social and emotional development particularly for Students of Color and Indigenous Students A first of its kind the Handbook of Research on Teachers of Color and Indigenous Teachers addresses key issues and obstacles to ethnoracial diversity across the life course of teachers careers such as recruitment and retention professional development and the role of minority serving institutions Including chapters from leading researchers and policy makers the Handbook is designed to be an important resource to help bridge the gap between scholars practitioners and policy makers In doing so this research will serve as a launching pad for discussion and change at this critical moment in our country s history The volume s goal is to drive conversations around the issue of ethnoracial teacher diversity and to provide concrete practices for policy makers and practitioners to enable them to make evidence based decisions for supporting an ethnoracially diverse educator workforce now and in the future Harper's Weekly John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1867
