**Strategy of Emerging Market Firms** Andrei Panibratov, 2017-03-16 Emerging economies are expected to be the driver's seat of the global economy in the medium and long term. Large multinational corporations will account for much of this activity. In this textbook Andrei Panibratov explains how emerging market firms accumulate and exploit market knowledge to develop competitive advantages whilst operating globally. Chapters dedicated to the key emerging economies Brazil, Russia, India and China (BRIC) are enhanced by detailed case studies of large firms' activities. The book is divided into four parts focusing on the following: An outline of the relevant terminology and the context of the international strategy of emerging market firms; providing an introductory foundation for the whole book; A guide to the evolution of perspectives regarding international strategy designed to illustrate the changes and trends in the recent academic research on internationalization; A country by country illustration of the internationalization of BRIC economies and firms; providing an overall picture of each country's global integration, outward investments and strategies. The concepts and practices behind the strategies employed by different firms. Written by an established international business scholar, this book is essential reading for students of international strategy who wish to understand the importance of the emerging economies.

**Financial and Technological Innovation for Sustainability** Artie Ng,Jatin Nathwani,2023-11-03 The COVID 19 crisis has proven that

sustainability of an institution or organization requires a constant review of one's strategic positioning and the execution of pertinent plans in response to evolving externalities. Resilient organizations continue to revive themselves through effective R&D and the renewal of their range of products and services. Financial and Technological Innovation for Sustainability Environmental Social and Governance Performance examines approaches to sustainability under the ongoing development of energy sustainability and the green finance initiatives. It unveils global heterogeneous efforts in achieving Environmental Social Governance ESG performance in light of climate change, global sustainability and concerns over corporate greenwashing. The book assembles a wealth of case studies from a variety of contemporary organizations that actively pursue sustainable development while seeking their next economic growth. These global cases demonstrate the salience of governance that institutes continuous advancements to enable the timely revitalization of corporate strategies, technological innovation and deployment of financial resources for sustainability transformation regardless of their stages of lifecycle. They reveal distinct approaches to financial and technological innovation in Africa, Asia, Europe and North America in pursuing the shared UN Sustainable Development Goals. The intertwined public private partnership and implications of geopolitics under an evolving global financial system for sustainability transformation are articulated. This book will appeal to academics as well as business and finance professionals who are keen to understand the interrelationship between financial and technological innovation and to those who want to comprehend the underlying global challenges and opportunities of adopting emerging technologies to reinvent a business model that forges measurable and impactful ESG performances.
