Foundations of Interpersonal Practice in Social Work Brett Seabury, Barbara Seabury, Charles D. Garvin, 2010-10-12 Prev ed entered under Gervin Charles D has title Interpersonal practice in social work **Globalization and the Critique of Political Economy** Lucia Pradella, 2014-11-27 The nature of the contemporary global political economy and the significance of the current crisis are a matter of wide ranging intellectual and political debate which has contributed to a revival of interest in Marx s critique of political economy This book interrogates such a critique within the broader framework of the history of political economy and offers a new appreciation of its contemporary relevance A distinctive feature of this study is its use of the new historical critical edition of the writings of Marx and Engels MEGA2 their partially unpublished notebooks in particular The sheer volume of this material forces a renewed encounter with Marx It demonstrates that the international sphere and non European societies had an increasing importance in his research which developed the scientific elements elaborated by Marx s predecessors This book questions widespread assumptions that the nation state was the starting point for the analysis of development It explores the international foundations of political economy from mercantilism to Adam Smith and David Ricardo and to Hegel and investigates how the understanding of the international political economy informs the interpretations of history to which it gave rise The book then traces the developments of Marx s critique of political economy from the early 1840s to Capital Volume 1 and shows that his deepening understanding of the laws of capitalist uneven and combined development allowed him to recognise the growth of a world working class Marx s work thus offers the necessary categories to develop an alternative to methodological nationalism and Eurocentrism grounded in a critique of political economy This book is essential reading for anyone interested in the development of Marx s thought and in the foundations of International Political Economy
