Congress Vs. the Bureaucracy Mordecai Lee, 2012-09-13 Government bureaucracy is something Americans have long loved to hate Yet despite this general antipathy some federal agencies have been wildly successful in cultivating the people's favor Take for instance the U S Forest Service and its still popular Smokey Bear campaign The agency early on gained a foothold in the public's esteem when President Theodore Roosevelt championed its conservation policies and Forest Service press releases led to favorable coverage and further goodwill Congress has rarely approved of such bureaucratic independence In *Congress vs the Bureaucracy* political scientist Mordecai Lee who has served as a legislative assistant on Capitol Hill and as a state senator explores a century of congressional efforts to prevent government agencies from gaining support for their initiatives by communicating directly with the public Through detailed case studies Lee shows how federal agencies have used increasingly sophisticated publicity techniques to muster support for their activities while Congress has passed laws to counter those PR efforts The author first traces congressional resistance to Roosevelt's campaigns to rally popular support for the Panama Canal project then discusses the Forest Service the War Department the Census Bureau and the Department of Agriculture Lee's analysis of more recent legislative bans on agency publicity in the George W Bush administration reveals that political battles over PR persist to this day Ultimately despite Congress's attempts to muzzle agency public relations the bureaucracy usually wins Opponents of agency PR have traditionally condemned it as propaganda a sign of a mushrooming self-serving bureaucracy and a waste of taxpayer dollars For government agencies though communication with the public is crucial to implementing their missions and surviving In *Congress vs the Bureaucracy* Lee argues these conflicts are in fact healthy for America They reflect a struggle for autonomy that shows our government's system of checks and balances to be alive and working well

complex process It entails dozens of subprocesses countless rules and procedures the efforts of tens of thousands of staff persons in the executive and legislative branches and the active participation of the President congressional leaders Members of Congress and members of the executive branch This analysis shows the various elements of the federal budget process including the President s budget submission framework timetable the budget resolution reconciliation the Byrd Rule appropriations authorizations and budget execution Congress is distinguished from nearly every other legislature in the world by the control it exercises over fashioning the government s budgetary policies This power referred to as the power of the purse ensures Congress primary role in setting revenue and borrowing policies for the federal government and in determining how these resources are spent The congressional power of the purse derives from several key provisions in the Constitution Article I Section 8 Clause 1 Power to tax and spend declares in part that Congress shall have the power to raise that is to lay and collect revenues of various types including taxes and duties among other things Article I Section 8 Clause 2 Borrowing power declares that the power to borrow funds on the credit of the United States belongs to Congress In addition to its powers regarding revenues and borrowing Congress exerts control over the expenditure of funds Article I Section 9 Clause 7 declares in part that funds can be withdrawn from the Treasury only pursuant to laws that make appropriations Under the Constitution revenue measures must originate in the House of Representatives Beyond this requirement however the Constitution does not prescribe how the House and Senate should organize themselves or the procedures they should use to conduct budgeting Over the years however both chambers have developed an extensive set of rules some set forth in statute and precedents that lay out complicated multiple processes for making budgetary decisions The House and Senate have also created an intricate committee system to support these processes As American society has grown and become ever more complex and as the role of the federal government in the national economy has steadily expanded Congress also has increasingly shared power over budgetary matters with the president and the executive branch It has refashioned the president s role in budgeting by requiring him to submit to Congress each year a budget for the entire federal government and giving him responsibilities for monitoring agencies implementation of spending and revenue laws Accordingly the president also exercises considerable influence over key budget decisions
