Organizing the content into four sections for clarity and ease of use, the authors discuss all the relevant information regarding the practicum experience, preparation for the internship, the internship experience, and evaluation, and important ethical and legal considerations. New in this edition are a listing and description of the various counseling theories and techniques, a section on crisis intervention and response, detailed guidelines for school mental health consultation, and forms for evaluating performance, cognitive and consulting skills. Forms are provided at the end of the book for the student's use in site selection, assessment, client treatment, and performance feedback and evaluation. Specific topics covered include popular counseling theories used by school counselors, working with special populations of students, application of the ASCA ethical standards, the administration of day-to-day tasks such as arranging an office space and managing your time, and elements of the guidance curriculum including individual student planning, responsive services, and systemic support. Each chapter contains activities, case studies, hypothetical situations, and worksheets designed to facilitate your understanding of and role in the profession. All material presented is consistent with both the CACREP accreditation standards and the American School Counseling Association's National Model. **Homelessness in America** Kathleen Swenson Miller, Georgiana L.
