Bekiashev, V.V. Serebriakov, 2012-12-06 In the last few years the quantity of books and papers on the political economic and legal problems of the exploration and use of the sea and marine resources has considerably increased But the status and activities of international organizations related to maritime shipping fisheries scientific research in the World Ocean and the protection of the marine environment have not yet as a whole been represented in the scientific and reference literature It would be fair though to mention that some general information on marine international organizations may be found in the Yearbook of International Organizations Brussels 1979

in Annotated Acronyms and Abbreviations of Marine Science Related International Organizations U S Department of Commerce 1976 and in the UN Annotated Directory of Intergovernmental Organizations Concerned with Ocean Affairs 1976 Voluminous information on organizations engaged in problems of the exploration and use of the sea is given in International Marine Organizations by the well known Polish scientists Lopuski and Symonides 1978 Meanwhile the increasing volume of practical work related to the participation of governmental and scientific bodies as well as individual scientists and specialists in these organizations the necessity of long term planning in this field and the perspectives of the development of these organizations make necessary a special publication depicting the structure and many sided activities of such international bodies This book is the first one in which the most complete information on the main marine international organizations is presented

Oil Spill Risks From Tank Vessel Lightering Division on Engineering and Physical Sciences, Ocean Studies Board, Commission on Engineering and Technical Systems, Marine Board, 1998-11-24 The safety record of lightering the transfer of petroleum cargo at sea from a large tanker to smaller ones has been excellent in U S waters in recent years as evidenced by the very low rate of spillage of oil both in absolute terms and compared with all other tanker related accidental spills The lightering safety record is likely to be maintained or even improved in the future as overall quality improvements in the shipping industry are implemented Risks can be reduced even further through measures that enhance sound lightering standards and practices support cooperative industry efforts to maintain safety and increase the availability of essential information to shipping companies and mariners Only continued vigilance and attention to safety initiatives can avert serious accidents involving tankers carrying large volumes of oil
