The Future of Reputation Daniel J. Solove, 2007-01-01 Teeming with chatrooms online discussion groups and blogs the Internet offers previously unimagined opportunities for personal expression and communication But there's a dark side to the story A trail of information fragments about us is forever preserved on the Internet instantly available in a Google search A permanent chronicle of our private lives often of dubious reliability and sometimes totally false will follow us wherever we go accessible to friends strangers dates employers neighbors relatives and anyone else who cares to look This engrossing book brimming with amazing examples of gossip slander and rumor on the Internet explores the profound implications of the online collision between free speech and privacy Daniel Solove an authority on information privacy law offers a fascinating account of how the Internet is transforming gossip the way we shame others and our ability to protect our own reputations Focusing on blogs Internet communities cybermobs and other current trends he shows that ironically the unconstrained flow of information on the Internet may impede opportunities for self development and freedom Long standing notions of privacy need review the author contends unless we establish a balance between privacy and free speech we may discover that the freedom of the Internet makes us less free

Is Voting for Young People? Martin P.
