### Changing for the better

Before using the device for the first time or the battery is not enough a long time you must first to charge the battery. In the state of the ground or in all phone states that show the battery cover when you charge the battery.

Only use the company's existing changes, history and data tables using the changes or data table without permission of using the battery capacitor or old storage for equipment in the condition of changing, all right drive without the all right drive power's expansion that the battery has been completed (that the battery insufficient) the system will show a warning message.

When the power is broken, the driver will find drive automatically.

[illegible]

- There is no lag to avoid the change when the change and debugging process are the same for improvement
- There is no cost attached to that the power cost is only power supply costs are not the change
- The change is not used for "Y" variable (power) as the target is the demand (VFD) information technology equipment costs
- If the change results in a cost saving, the cost saving is not the target (Y) but the cost saving is the target (Y) but the cost saving is the target (Y)
