to make sense of it all. If you're like most people moving into the phase of life where protecting as well as growing assets is paramount, you're faced with a number of financial puzzles. Maybe you're struggling to get your kids through college without drawing down your life's savings. Perhaps you sense your nest egg is at risk and want to move into safer investments. Maybe you're contemplating downsizing to a smaller home but aren't sure of the financial implications. Possibly medical expenses have become a bigger drain than you expected and you need help assessing options. Perhaps you'll shortly be eligible for social security but want to optimize when and how to take it. Whatever your specific financial issue, one thing is certain: your range of choices is vast. As the financial world becomes increasingly complex, what you need is deeply researched advice from professionals whose credentials are impeccable and who prize clarity and straightforwardness over financial mumbo jumbo.

Carrie Schwab Pomerantz and the Schwab team have been helping clients tackle their toughest money issues for decades. Through Carrie's popular Ask Carrie columns, her leadership of the Charles Schwab Foundation, and her work across party lines through two White House administrations and with the President's Advisory Council on Financial Capability, she has become one of America's most trusted sources for financial advice. Here, Carrie will not only answer all the questions that keep you up at night, she'll provide answers to many questions you haven't considered but should.

**Never Buy Another Stock Again** David Gaffen, 2010-09-09. Want to build long-term sustainable wealth? Then stay out of the stock market. That's radically different advice from what the experts have served up for decades, but look at the miserable results those pundits have delivered. Investors who've chosen equity-based buy-and-hold approaches have seen their assets decline dramatically, not just for a year but often for decades. Fortunately, there are better ways to invest, and *Never Buy Another Stock Again* reveals them.

Renowned Reuters financial journalist David Gaffen first explains why stocks are an even worse short- and long-term investment than you realize. Next, he shows how to create a balanced portfolio that reflects a big-picture, holistic approach, intelligently incorporating cash, real estate, retirement funds, savings, and other holdings. Gaffen's strategies rely primarily on investments outside the stock market while identifying strictly limited roles for mutual funds and ETFs. Readers will learn how to dramatically reduce investing costs that can kill your returns, invest in an environment where double-digit returns can never be expected, overcome huge flaws in conventional diversification strategies, and offset risks associated with existing equity ownership.
