The true story of a teen girl who almost died for her right to go to school

BY KRISTIN LEWIS

October 9, 2012, was an ordinary afternoon in the Swat Valley in northern Pakistan. Malala Yousafzai (yoo-saf-ZAY), 15, was on a school bus waiting to go home. Suddenly, two gunmen in masks appeared.

"Who is Malala?" one of them yelled. A feeling of terror filled the bus. Then the gunmen opened fire. One bullet hit Malala's head. Two of Malala's friends were struck in their arms. Then the gunmen ran off, leaving Malala to die.

It might be difficult to understand why anyone would try to murder an innocent girl on her way home from school. But some people in Pakistan did not view Malala for what she was: a bright and kind teenager. They saw her as a dangerous threat to their way of life.

Malala had been fighting for the right for all girls to go to school—work that made her famous around the world.

It also made her a target of an evil group of **terrorists** called the Taliban.

**Book of What If...?** Matt Murrie, Andrew R McHugh, 2016-04-19 From the creators of the What If Conference comes a quirky book that encourages kids to explore and engage with the world around them by asking more than eighty wild absurd and thought provoking questions What if a book didn't just tell you how to think or what to know but rather encouraged you to think for yourself What if there was a book that focused on asking questions instead of just answering them *The Book of What If* does just that What if you lived on a floating city What if politicians were kids What if broccoli tasted like chocolate What if you could explore outer space By asking these fun open ended questions this book fosters greater critical thinking skills and gives kids a space to interact by breaking out a notebook to draw or write out their personal reactions or engage in entertaining exercises with family and friends Plus sidebars deepen the investigation with peer to peer insights historical and current profiles real life examples and more making for unlimited learning opportunities Divided into sections history people stuff and nature along with four introductory texts to open up a dialogue about why it's important to be inquisitive and to always ask questions *The Book of What If* is sure to be a hit with kids teachers and parents alike So ask a question and let the answers lead you on an exciting journey filled with endless opportunities to learn **Coping with Hate and Intolerance**

Avery Elizabeth Hurt, 2017-12-15 In recent years hate incidents whether based on race gender sexual orientation nation of

origin or any other perceived difference have become increasingly common in schools. Students who aren't the victims of hate and intolerance are almost certain to witness it. This unstinting but ultimately optimistic book defines hate and intolerance, explores the reasons some people express hate toward others, and gives readers a blueprint for recognizing and deflecting hate with nonviolence and kindness. Ten questions for an expert, myths and facts about intolerance, and thought-provoking sidebars round out this timely volume.

**Strategies That Work** Stephanie Harvey, Anne Goudvis, 2017. In this new edition of their groundbreaking book *Strategies That Work*, Stephanie Harvey and Anne Goudvis share the work and thinking they've done since the second edition came out a decade ago and offer new perspectives on how to explicitly teach thinking strategies so that students become engaged, thoughtful, independent readers. Thirty new lessons and new and revised chapters shine a light on children's thinking, curiosity, and questions. Steph and Anne tackle close reading, close listening, text complexity, and critical thinking in a new chapter on building knowledge through thinking-intensive reading and learning. Other fully revised chapters focus on digital reading strategies for integrating comprehension and technology and comprehension across the curriculum. The new edition is organized around three sections. Part I provides readers with a solid introduction to reading comprehension instruction, including the principles that guide practice suggestions for text selection and a review of recent research that underlies comprehension instruction. Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III shows you how to integrate comprehension instruction across the curriculum and the school day, particularly in science and social studies. Updated bibliographies, including the popular Great Books for Teaching Content, are accessible online. Since the first publication of *Strategies That Work*, more than a million teachers have benefited from Steph and Anne's practical advice on creating classrooms that are incubators for deep thought. This third edition is a must-have resource for a generation of new teachers and a welcome refresher for those with dog-eared copies of this timeless guide to teaching comprehension.

*Teaching Children's Literature* Christine H. Leland, Mitzi Lewison, Jerome C. Harste, 2022-11-17. Now in its third edition, this indispensable text offers a critical perspective on how to integrate children's literature into the curriculum in effective, purposeful ways. Structured around three mantras that build on each other: Enjoy, Dig deeply, Take action, the book is rich with real examples of teachers implementing critical pedagogy and tools to support students' development as enthusiastic readers and thinkers. The materials and practical strategies focus on issues that impact children's lives, building from students' personal experiences and cultural knowledge by using language to question the everyday world, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. Each chapter features classroom vignettes showcasing the use of literature and inviting conversation, three key principles elaborating the main theme of the chapter, and connecting theory with practice and related research on the topics and their importance for curriculum. Thoroughly revised, the third edition includes new recommendations for teaching with a critical edge and exploring alternative approaches to standardized

assessment With more attention to culturally and linguistically diverse learners and addressing new topics such as censorship and controversial texts the new edition is essential for courses on teaching children s literature and English Language Arts methods and for every preservice elementary and middle school English teacher A companion website to enrich and extend the text includes an annotated bibliography of literature selections suggested text sets resources by chapter ideas for professional development and recommendations for further reading Children's Books in Print ,1993
