Uniform Trade List Circular Howard Challen, 1866 *Britain Observed* V. V. Ovchinnikov, 2014-05-19 *Britain Observed* A Russian's View focuses on the understanding of the customs identity political and social structure and societal relations of the British The book first underscores some of the misperceptions of the British of Russia the author's country The text also highlights the experiences of the author when he first arrived in Britain noting the process of acclimatization that he has undergone The manuscript emphasizes the appreciation of the author of the sceneries in England as the sloping hills fertile meadows and village church spires that emerge from the hilltops are mentioned The author also signifies that England is the kingdom of private life and says that neighbors maintain a certain degree of secrecy and that they discourage intrusion into their private lives The text also conveys how the author perceives the structure of the government and how Buckingham Palace influences the functions and operations of the government The book is a fine reference for readers who want to learn the traditions political considerations and identity of the British **The Ivory Tower and Harry Potter** Lana A. Whited, 2004 Now available in paper The Ivory Tower and Harry Potter is the first book length analysis of J K Rowling's work from a broad range of perspectives within literature folklore psychology sociology and popular culture A significant portion of the book explores the Harry Potter series literary ancestors including magic and fantasy works by Ursula K LeGuin Monica Furlong Jill Murphy and others as well as previous works about the British boarding school experience Other chapters explore the moral and ethical dimensions of Harry's world including objections to the series raised within some religious circles In her new epilogue Lana A Whited brings this volume up to date by covering Rowling's latest book Harry Potter and the Order of the Phoenix *Problems of Communism*, 1972 **Conceptualising China through translation** James St. André, 2023-11-07 This monograph provides an innovative methodology for investigating how China has been conceptualised historically by tracing the development of four key cultural terms filial piety face fengshui and guanxi between English and Chinese It addresses how specific ideas about what constitutes the uniqueness of Chinese culture influence the ways users of these concepts think about China and themselves Adopting a combination of archival research and mining of electronic databases it documents how the translation process has been bound up in the production of new meaning In uncovering how both sides of the translation process stand to be transformed by it the study demonstrates the dialogic nature of translation and its potential contribution to cross cultural understanding It also aims to develop a foundation on which other area studies might build broader scholarship about global knowledge production and exchange **Bonds of Empire** Anne Spry Rush, 2011-06-09 In the first half of the twentieth century Britishness was an integral part of the culture that pervaded life in the colonial Caribbean Caribbean peoples were encouraged to identify with social structures and cultural values touted as intrinsically British Many middle class West Indians of colour duly adopted Britishness as part of their own identity Yet as Anne Spry Rush explains in *Bonds of Empire* even as they re-fashioned themselves West Indians recast Britishness in their

own image basing it on hierarchical ideas of respectability that were traditionally British but also on more modern expectations of racial and geographical inclusiveness Britain became the focus of an imperial British identity an identity which stood separate from and yet intimately related to their strong feelings for their tropical homelands Moving from the heights of empire in 1900 to the independence era of the 1960s Rush argues that middle class West Indians used their understanding of Britishness first to establish a place for themselves in the British imperial world and then to negotiate the challenges of decolonization Through a focus on education voluntary organization the challenges of war radio broadcasting and British royalty she explores how this process worked in the daily lives of West Indians in both the Caribbean and the British Isles Bonds of Empire thus traces West Indians participation in a complex process of cultural transition as they manipulated Britishness and their relationship to it not only as colonial peoples but also as Britons *The Rise of the Modern Educational System* Detlef Müller, Detlef K. Müller, Fritz Ringer, Brian Simon, 1989-11-30 A pioneering socio historical analysis of change and development in secondary education in England France and Germany during the late nineteenth and early twentieth centuries **Other Cultures** John H.M. Beattie, 2005-07-25 Other Cultures provides a lucid introduction to social anthropology The author devotes the first part of the book to a consideration of what social anthropology is and seeks to do what areas it covers and the methods of investigation employed by social anthropologists The second part discusses the major categories of research through which social anthropologies have advanced our knowledge of other cultures These include marriage kinship political organization law economic and property relations magic religion and social change The final chapter surveys some of the contributions social anthropology has made to the understanding of other cultures A short reading list follows each chapter **Educating African Immigrant Youth** Vaughn W. M. Watson, Michelle G. Knight-Manuel, Patriann Smith, 2024 Black African immigrant youth and young adults from countries south of the Sahara among the most rapidly growing immigrant groups in the US given immigration resettlement and asylum programs have long demonstrated varied racial ethnic gendered cultural linguistic religious and transnational identities in their diverse schooling and education practices Moreover African immigrant youth enacting complex embodied practices within and across varied schooling and educational contexts and at the interplay of language literacy and civic learning and action taking complicate urgent questions of which students may engage civically in schools and communities and how they may do so Thus transformative education research to support diverse schooling education and civic engagement experiences for African immigrant and refugee students will increasingly depend on enacting generative research frameworks teaching approaches and innovative methodologies Such research and teaching hold possibilities for assisting and preparing researchers teacher educators teachers and community based educators to identify key schooling education and civic engagement practices associated with student s varied identities and or taking up research approaches and learning contexts that affirm and extend the identified practices Boarding School Syndrome Joy Schaverien, 2015-06-05 Boarding School Syndrome is an analysis

of the trauma of the privileged child sent to boarding school at a young age Innovative and challenging Joy Schaverien offers a psychological analysis of the long established British and colonial preparatory and public boarding school tradition Richly illustrated with pictures and the narratives of adult ex boarders in psychotherapy the book demonstrates how some forms of enduring distress in adult life may be traced back to the early losses of home and family Developed from clinical research and informed by attachment and child development theories Boarding School Syndrome is a new term that offers a theoretical framework on which the psychotherapeutic treatment of ex boarders may build Divided into four parts History In the Name of Privilege Exile and Healing Broken Attachments A Hidden Trauma and The Boarding School Body the book includes vivid case studies of ex boarders in psychotherapy Their accounts reveal details of the suffering endured loss bereavement and captivity are sometimes compounded by physical sexual and psychological abuse Here Joy Schaverien shows how many boarders adopt unconscious coping strategies including dissociative amnesia resulting in a psychological split between the home self and the boarding school self This pattern may continue into adult life causing difficulties in intimate relationships generalized depression and separation anxiety amongst other forms of psychological distress Boarding School Syndrome demonstrates how boarding school may damage those it is meant to be a reward and discusses the wider implications of this tradition It will be essential reading for psychoanalysts Jungian analysts psychotherapists art psychotherapists counsellors and others interested in the psychological cultural and international legacy of this tradition including ex boarders and their partners

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national

show how a broad base of trust across a school community can provide a critical resource as education professional and parents embark on major school reforms A Volume in the American Sociological Association s Rose Series in Sociology
