**Science and Health 1875** Mary Baker Eddy,2016-05-31 A reprint of the historic 1st Edition of the book Science and Health that over the course of more than 400 editions has uplifted the word Today in the year 2016 the 150th anniversary year of the discovery of Christian Science in 1866 it becomes appropriate to look back in time to the revolutionary change in the perception of God and man with which the great uplift began that history tells us coincides with the greatest period of peace in the world It took Mary Baker Eddy named Mary Baker Glover at the time a full nine years of scientific spiritual development until she was ready to publish the first edition of a comprehensive textbook of the science that she had discovered which is presented in this book While the book was constantly upgraded in the course of more than 400 editions since the its first publication in 1875 the revolutionary spirit that shines through its pages from the very beginning is still valid today and valuable for inspiring healing effects as it did from its first day on I am republishing the historic text to enable a fuller appreciation of the depth of her work from the beginning and the great amount of work by Mary Baker Eddy that preceded the final edition of the book in 1910 a labor of love spanning 35 Years This reprint of the 1st Edition has all of Mary Baker Eddy s errata applied instead of merely appended Rolf A F Witzsche *Science and Health with Key to the Scriptures* Mary Baker Eddy,1989-06-01

**God's Perfect Child** Caroline Fraser,2024-06-04 From the Pulitzer Prize winning author the most powerful and persuasive attack on Christian Science to have been written in this century Los Angeles Times Book Review Millions of Americans from Lady Astor to Ginger Rogers to Watergate conspirator H R Haldeman have been touched by the Church of Christ Scientist Founded by Mary Baker Eddy in 1879 Christian Science was based on a belief that intense contemplation of the perfection of God can heal all ills an extreme expression of the American faith in self reliance In this unflinching investigation Caroline Fraser herself raised in a Scientist household shows how the Church transformed itself from a small eccentric sect into a politically powerful and socially respectable religion and explores the human cost of

Christian Science's remarkable rise Fraser examines the strange life and psychology of Mary Baker Eddy. She takes us into the closed world of Eddy's followers who refuse to acknowledge the existence of illness and death and reject modern medicine even at the cost of their children's lives. She reveals just how Christian Science managed to gain extraordinary legal and Congressional sanction for its dubious practices and tracks its enormous influence on new age beliefs and other modern healing cults. A passionate exposé of zealotry. God's Perfect Child tells one of the most dramatic and little known stories in American religious history. A work of impassioned rationality, important and profoundly disturbing. Susan Jacoby, *Newsday*. New Startling. Fraser has an eye and ear for the kind of detail that can help readers make up their own minds about an always controversial American religious expression. Martin Marty, *The Boston Globe*. Splendid. The New York Times.

**Science and Health with Key to the Scriptures (Veda a Zdravi s Klicem k Pismu)** Mary Baker Eddy, 1983 The Philosophical Foundations of Christian Science Nicholas Sheldon, 2025-04-24 Mary Baker Eddy 1821-1910 is best known for founding the religion of Christian Science, an international institution which has extended beyond her lifetime and into the twenty-first century. Often labelled as fringe theology rather than core philosophy, Eddy's work has remained on the peripheries of academia. Her unmitigated idealism and occasionally nebulous style have led to a reluctance to apply a philosophical rigour to her thinking. In *The Philosophical Foundations of Christian Science*, Nicholas Sheldon rediscovers her as a radical philosopher, one of many female philosophers of her time who he contends should no longer be underestimated. Carefully analysing her non-linear style in order to understand her internal system of thought, Sheldon resolves flaws within her argument and draws out Christian Science's remarkable philosophical assertion that it is not only illness and suffering which are unreal but the entire physical realm. For Eddy, it is only the spiritual which remains. **Understanding the Science and Practice of Public Health** Richard Crosby, 2023-04-25 A civically minded approach to public health, perfect for students on any career path. *Understanding the Science and Practice of Public Health* is an exciting new textbook designed specifically for introductory public health courses at the college level. **Selected Works of Mary Baker Eddy** Mary Baker Eddy, 2020-09-28 To day being with you in spirit what need that I should be present in propria persona Were I present methinks I should be much like the Queen of Sheba when she saw the house Solomon had erected In the expressive language of Holy Writ There was no more spirit in her and she said Behold the half was not told me thy wisdom and prosperity exceedeth the fame which I heard Both without and within the spirit of beauty dominates The Mother Church from its mosaic flooring to the soft shimmer of its starlit dome Nevertheless there is a thought higher and deeper than the edifice Material light and shade are temporal not eternal Turning the attention from sublunary views however enchanting think for a moment with me of the house wherewith they shall be abundantly satisfied even the house not made with hands eternal in the heavens With the mind s eye glance at the direful scenes of the war between China and Japan Imagine yourselves in a poorly barricaded fort fiercely besieged by the enemy Would you rush forth single handed to combat the foe Nay would you not rather strengthen your citadel by every means in your power and remain within the walls for its defense Likewise should we do as metaphysicians and Christian Scientists The real house in which we live and move and have our being is Spirit God the eternal harmony of infinite Soul The enemy we confront would overthrow this sublime fortress and it behooves us to defend our heritage How can we do this Christianly scientific work By intrenching ourselves in the knowledge that our true temple is no human fabrication but the superstructure of Truth reared on the foundation of Love and pinnacled in Life Such being its nature how can our godly temple possibly be demolished or even disturbed Can eternity end Can Life die Can Truth be uncertain Can Love be less than boundless Referring to this temple our Master said Destroy this temple and in three days I will raise it up He also said The kingdom of God is within you Know then that you possess sovereign power to think and act rightly and that nothing can dispossess you of this heritage and trespass on Love If you maintain this position who or what can cause you to sin or suffer Our surety is in our confidence that we are indeed dwellers in Truth and Love man s eternal mansion Such a heavenly assurance ends all warfare and bids tumult cease for the good fight we have waged is over and divine Love gives us the true sense of victory They shall be abundantly satisfied with the fatness of Thy house and Thou shalt make them drink of the river of Thy pleasures No longer are we of the church militant but of the church triumphant and with Job of old we exclaim Yet in my flesh shall I see God The river of His pleasures is a tributary of divine Love whose living waters have their source in God and flow into everlasting Life We drink of this river when all human desires are quenched satisfied with what is pleasing to the divine Mind Perchance some one of you may say The evidence of spiritual verity in me is so small that I am afraid I feel so far from victory over the flesh that to reach out for a present realization of my hope savors of temerity Because of my own unfitness for such a spiritual animus my

strength is naught and my faith fails O thou weak and infirm of purpose Jesus said Be not afraid What if the little rain should say So small a drop as I Can ne er refresh a drooping earth I ll tarry in the sky Is not a man metaphysically and mathematically number one a unit and therefore whole number governed and protected by his divine Principle God You have simply to preserve a scientific positive sense of unity with your divine source and daily demonstrate this Then you will find that one is as important a factor as duodecillions in being and doing right and thus demonstrating deific Principle A dewdrop reflects the sun Each of Christ s little ones reflects the infinite One and therefore is the seer s declaration true that one on God s side is a majority      Dictionary Of Modern American Philosophers John R. Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought      **The Cambridge history of American literature** ,1917      Our New Religion Herbert Albert Laurens Fisher,1929
