

Name _____

Food Web

1. For the food web, label each organism: (Some may have more than one label.)

P = producer 1 = Primary Consumer 2 = Secondary Consumer 3 = Tertiary Consumer

2. Now label each animal as either: H = herbivore C = carnivore O = omnivore

3. Create your own food web on the back that models a typical food web for either a **lake** ecosystem or the **ocean**. You should include at least 6 organisms in your model and show the direction of energy flow. You do need to draw the organisms, but since we aren't all artists, you can label them so that viewers know what your animal is.
