Subject: Analysis of leadership issues at Academic Recycling Company – CONFIDENTIAL

Dear Sully,

As requested and discussed, please find the below for my analysis of the leadership issues at your company and some reasons for the problems you are experiencing.

Current situation

Before the course

Your leadership style was autocratic and focused on tight administrative process of operating and monitoring contracts. It was good in a sense that you have a good ability in making instant decisions and it comes from your belief that employees were lazy and lacking of initiative. However, it also leads to overload of work to you, especially on trivial matters, causing you have less time to obtain contracts. Besides, some employees were unhappy about your leadership style and left the company.

After the course

Your leadership style changed from autocratic to democratic as advised and learnt from the course. It comes from your good objective to make your employees more effective and motivated through enriching their jobs and empowering them. However, it was not so successful due to the following reasons.

Reason analysis

Speed of the change

The first reason for unsuccessful change in leadership style is the quick change speed. From the perspective of the employees, the change just happened overnight. This makes the employees confusing and very difficult for them to understand what happened, why happened and how to adjust to the new style.

Employee's preference and situational fit

Employee's lacking of skills and experience
