Low-Power CMOS Digital Pixel Imagers for High-Speed Uncooled PbSe IR Applications Josep Maria Margarit, 2016-12-29 This book describes the development of a new low cost medium wavelength IR MWIR monolithic imager technology for high speed uncooled industrial applications It takes the baton on the latest technological advances in the field of vapor phase deposition VPD PbSe based MWIR detection accomplished by the industrial partner NIT S L adding fundamental knowledge on the investigation of novel VLSI analog and mixed signal design techniques at circuit and system levels for the development of the readout integrated device attached to the detector In order to fulfill the operational requirements of VPD PbSe this work proposes null inter pixel crosstalk vision sensor architectures based on a digital only focal plane array FPA of configurable pixel sensors Each digital pixel sensor DPS cell is equipped with fast communication modules self biasing offset cancellation analog to digital converter ADC and fixed pattern noise FPN correction In pixel power consumption is minimized by the use of comprehensive MOSFET subthreshold operation *Physical Model and Applications of High-Efficiency Electro-Optical Conversion Devices - Volume II* Feng Chi, Qiang Xu, Dan Luo, 2023-03-31

Materials for Solid State Lighting and Displays Adrian Kitai, 2016-12-15 LEDs are in the midst of revolutionizing the lighting industry Up to date and comprehensive coverage of light emitting materials and devices used in solid state lighting and displays Presents the fundamental principles underlying luminescence Includes inorganic and organic materials and devices LEDs offer high efficiency long life and mercury free lighting solutions MH-SET Paper 1 Guide for Assistant Professor with Past Questions Disha Experts, 2020-02-29 **Visible Light Communications** Zhaocheng Wang, Qi Wang, Wei Huang, Zhengyuan Xu, 2017-12-08 A complete and comprehensive reference on modulation and signal processing for visible light communication This informative new book on state of the art visible light communication VLC provides for the first time a systematical and advanced treatment of modulation and signal processing for VLC Visible Light Communications Modulation and Signal Processing offers a practical guide to designing VLC linking academic research with commercial applications In recent years VLC has attracted attention from academia and industry since it has many advantages over the traditional radio frequency including wide unregulated bandwidth high security and low cost It is a promising complementary technique in 5G and beyond wireless communications especially in indoor applications However lighting constraints have not been fully considered in the open literature when considering VLC system design and its importance has been underestimated That s why this book written by a team of experts with both academic research experience and industrial development experience in the field is so welcome To help readers understand the theory and design of VLC systems the book Details many modern techniques on both modulation and signal processing aspects Links academic research with commercial applications in visible light communications as well as other wireless communication systems Combines theoretical rigor with practical examples in presenting optical camera communication systems Visible Light Communications

Modulation and Signal Processing serves as a useful tool and reference book for visible light communication professionals as well as wireless communication system professionals and project managers It is also an important guide for undergraduates and graduates who want to conduct research in areas of wireless communications *Software Engineering And Information Technology - Proceedings Of The 2015 International Conference (Seit2015)* Xiaolong Li,2015-12-17 This book consists of sixty seven selected papers presented at the 2015 International Conference on Software Engineering and Information Technology SEIT2015 which was held in Guilin Guangxi China during June 26 28 2015 The SEIT2015 has been an important event and has attracted many scientists engineers and researchers from academia government laboratories and industry internationally The papers in this book were selected after rigorous review SEIT2015 focuses on six main areas namely Information Technology Computer Intelligence and Computer Applications Algorithm and Simulation Signal and Image Processing Electrical Engineering and Software Engineering SEIT2015 aims to provide a platform for the global researchers and practitioners from both academia as well as industry to meet and share cutting edge development in the field This conference has been a valuable opportunity for researchers to share their knowledge and results in theory methodology and applications of Software Engineering and Information Technology **Remote Sensing Application for Precision Agriculture**

Matthew McCabe,Chunyu Diao,Xiuliang Jin,Zhenhai Li,Dameng Yin,2023-08-11 Precision agriculture is used to improve site specific agricultural decision making based on data collection and analysis formulation of site specific management recommendations and implementation of management practices to correct for factors that can limit crop growth yield and quality Various approaches for the remote sensing of soil fertility water stress diseases and infestations and crop growth and condition have been developed and applied for precision agricultural purposes With developments in remote sensing technologies the spatial and spectral resolution and return frequencies available from both satellite and other remote collection platforms have improved to the point that the promise of precision agriculture can increasingly be realized Unmanned aerial vehicles UAV in particular are providing newer and deeper insights leveraging their high resolution sensor carrying flexibility and dynamic acquisition schedule This range of remote sensing platforms has been used to estimate comprehensive information related to crop health and dynamics providing rapid retrievals of leaf area index canopy cover chlorophyll nitrogen canopy leaf water content canopy leaf temperature biomass and yield amongst many other variables of interest In combination they allow for the expansion from local to regional scales and beyond There has never been a greater opportunity for remote sensing data to enable precision agricultural insights that can be used to better monitor manage and respond to in field changes that might impact crop growth health and yield **Remote Sensing Advances in Biodiversity and Ecosystem Functioning Research**

Zhouyuan Li,Weiwei Sun,Yanjie Xu,Jixi Gao,Shijia Peng,2024-02-06 Different dimensions of biodiversity are increasingly appreciated as critical for maintaining the functions of ecosystems and their services to humans More recently with the emergence of functional biogeography functional diversity is of particular interest

due to its strong links with ecosystem processes such as carbon water and energy exchange and climate mitigation The multi form diversity varies in space and time Understanding this variation across scales is important for tracking the resilience of Earth s ecosystem and the information on the ecosystem structural features provides necessary foundations for monitoring predicting the ecosystem functioning patterns and process of ecosystems from individual unit to its whole in a holistic manner In recent the high resolution high throughput non intrusive and large scale data on biodiversity monitoring and measurement are becoming a new trend toward enhancing the efficiency and coherency in ecological discovery Still the available multi scale data on multi dimensional diversity are incomplete and non representative taxonomically geographically and temporally Although the studies on functional traits and their relations with function continue to grow local observations on functional traits are limited Recently remote sensing has proved to be a critical technology for addressing this research gap Air and satellite borne spectrometers at different levels could develop novel diversity measurements and alternati

Geohazards Madhavi Latha Gali,P. Raghuveer Rao,2020-08-13 This volume comprises select papers presented during the Indian Geotechnical Conference 2018 This volume discusses concepts of soil dynamics and studies related to earthquake geotechnical engineering slope stability and landslides The papers presented in this volume analyze failures connected to geotechnical and geological origins to improve professional practice codes of analysis and design This volume will prove useful to researchers and practitioners alike *Does it sink or float?* Susan Hughes,2018-01-18 Read Along or Enhanced eBook Vibrant photographs and accessible text introduce young scientists to the concept of density Readers are encouraged to explore what makes some objects float and others sink [Sea Ice: Bridging Spatial-Temporal Scales and Disciplines](#) Hauke Flores,Benjamin Allen Lange,Giulia Castellani,Jeff Shovlowsky Bowman,Janne-Markus Rintala,2020-06-25 This eBook is a collection of articles from a Frontiers Research Topic Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series they are collections of at least ten articles all centered on a particular subject With their unique mix of varied contributions from Original Research to Review Articles Frontiers Research Topics unify the most influential researchers the latest key findings and historical advances in a hot research area Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office frontiersin.org about contact

Intelligent Systems Design and Applications Ajith Abraham,Aswani Kumar Cherukuri,Patricia Melin,Niketa Gandhi,2019-04-13 This book highlights recent research on Intelligent Systems and Nature Inspired Computing It presents 212 selected papers from the 18th International Conference on Intelligent Systems Design and Applications ISDA 2018 and the 10th World Congress on Nature and Biologically Inspired Computing NaBIC which was held at VIT University India ISDA NaBIC 2018 was a premier conference in the field of Computational Intelligence and brought together researchers engineers and practitioners whose work involved intelligent systems and their applications in industry and the real world Including contributions by authors from over 40 countries the book offers a valuable reference guide for all researchers students and

practitioners in the fields of Computer Science and Engineering *Foundations and Frontiers in Computer, Communication and Electrical Engineering* Aritra Acharyya, 2016-05-05 The 3rd International Conference on Foundations and Frontiers in Computer Communication and Electrical Engineering is a notable event which brings together academia researchers engineers and students in the fields of Electronics and Communication Computer and Electrical Engineering making the conference a perfect platform to share experience f Proceedings of The 17th East Asian-Pacific Conference on Structural Engineering and Construction, 2022 Guoqing Geng, Xudong Qian, Leong Hien Poh, Sze Dai Pang, 2023-03-13 This book presents articles from The 17th East Asian Pacific Conference on Structural Engineering and Construction 2022 organized by National University of Singapore These peer reviewed articles authored by professional engineers academics and researchers highlight the recent research and developments in structural engineering and construction embracing the theme Towards a Resilient and Sustainable City The papers presented in this proceeding provide in depth discussions with key insights into the future research development and engineering translation in structural engineering and construction

Comprehensive Remote Sensing Shunlin Liang, 2017-11-08 Comprehensive Remote Sensing Nine Volume Set covers all aspects of the topic with each volume edited by well known scientists and contributed to by frontier researchers It is a comprehensive resource that will benefit both students and researchers who want to further their understanding in this discipline The field of remote sensing has quadrupled in size in the past two decades and increasingly draws in individuals working in a diverse set of disciplines ranging from geographers oceanographers and meteorologists to physicists and computer scientists Researchers from a variety of backgrounds are now accessing remote sensing data creating an urgent need for a one stop reference work that can comprehensively document the development of remote sensing from the basic principles modeling and practical algorithms to various applications Fully comprehensive coverage of this rapidly growing discipline giving readers a detailed overview of all aspects of Remote Sensing principles and applications Contains Layered content with each article beginning with the basics and then moving on to more complex concepts Ideal for advanced undergraduates and academic researchers Includes case studies that illustrate the practical application of remote sensing principles further enhancing understanding **The History of the GPU - Steps to Invention** Jon Peddie, 2023-01-01 This is the first book in a three part series that traces the development of the GPU Initially developed for games the GPU can now be found in cars supercomputers watches game consoles and more GPU concepts go back to the 1970s when computer graphics was developed for computer aided design of automobiles and airplanes Early computer graphics systems were adopted by the film industry and simulators for airplanes and high energy physics exploding nuclear bombs in computers instead of the atmosphere A GPU has an integrated transform and lighting engine but these were not available until the end of the 1990s Heroic and historic companies expanded the development and capabilities of the graphics controller in pursuit of the ultimate device a fully integrated self contained GPU Fifteen companies worked on building the first fully integrated

GPU some succeeded in the console and Northbridge segments and Nvidia was the first to offer a fully integrated GPU for the PC Today the GPU can be found in every platform that involves a computer and a user interface *Sustainable*

Hydraulics in the Era of Global Change Sébastien Erpicum, Benjamin Dewals, Pierre Archambeau, Michel Piroton, 2016-12-01
In an increasingly urbanized world water systems must be designed and operated according to innovative standards in terms of climate adaptation resource efficiency sustainability and resilience This grand challenge triggers unprecedented questions for hydro environment research and engineering Shifts in paradigms are urgently needed in the way we view circular water systems water as a renewable energy production and storage risk management of floods storms sea level rise and droughts as well as their consequences on water quality morphodynamics e g reservoir sedimentation scour sustainability of deltas and the environment Addressing these issues requires a deep understanding of basic processes in fluid mechanics heat and mass transfer surface and groundwater flow among others **High-Throughput Phenotyping for Crop Improvement**
