designers with step by step implementations **Welcome to Your Designer Planet!** Richard Leviton, 2007-09-05 We now live in the time of the Gaian hierophant This is the one who reveals and shows us how to relate to the sacred aspects of Gaia our planet Who is this hierophant Each of us when we join the campaign with Gaia against the desecration of our natural environment But first we have to discover what the Earth really is The Earth s thousands of sacred sites hold a secret they are functional parts of the planet s geomantic body consciousness nodes in the Earth s subtle body Each veils a Light temple each once known widely and remembered in myth and Welcome to Your Designer Planet documents 165 different kinds The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness And the designers intended that humans help maintain it Want to help the ecosystem and modulate global warming and climate change Plug yourself into the Earth s Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth s geomantic reality based on 24 years of research The world s myths are the doorway into this fantastic domain of the Earth s visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see The future of the Earth is in our hands Here are some pages from its design manual showing us how to fine tune our wonderful host planet

Scientific American ,1886 *Empowering Your Soul* Glensy-Kay, 2012-11-13 We are on a fascinating journey of life of living and of learning to create for ourselves the life we always wanted a life that fits neatly around the health wealth and happiness that most of us have always been striving for Why havent we been able to create this life What has prevented us from having this mythical health wealth and happiness Some have it and then lose it or throw it away So often we either cant create it or we lose it because we have had absolutely no idea of how the energies of life work This is what this book is all about helping you to understand how life works and in that place you can then create your dreams You become empowered to make better choices Not everyone comprehends the very basic foundation of life that we do create the reality in which we live When you read this book you will understand just how important this is It is a valuable read for all those seeking answers to the meaning of life We need this information to enable us to better understand and live in the new future we are in the process of creating *Using Technology with Classroom Instruction That Works* Howard Pitler, Elizabeth R. Hubbell, Matt Kuhn, 2012-08-02 Technology is ubiquitous and its potential to transform learning is immense The first edition of Using Technology with Classroom Instruction That Works answered some vital questions about 21st century teaching and learning What are the best ways to incorporate technology into the curriculum What kinds of technology will best support particular learning tasks and objectives How does a teacher ensure that technology use will enhance instruction rather than distract from it This revised and updated second edition of that best selling book provides fresh answers to these critical questions taking into account the enormous technological advances that have occurred since the first edition was published including the proliferation of social networks mobile devices and web based multimedia tools It also builds on the up to date research

and instructional planning framework featured in the new edition of Classroom Instruction That Works outlining the most appropriate technology applications and resources for all nine categories of effective instructional strategies Setting objectives and providing feedback Reinforcing effort and providing recognition Cooperative learning Cues questions and advance organizers Nonlinguistic representations Summarizing and note taking Assigning homework and providing practice Identifying similarities and differences Generating and testing hypotheses Each strategy focused chapter features examples across grade levels and subject areas and drawn from real life lesson plans and projects of teachers integrating relevant technology in the classroom in ways that are engaging and inspiring to students The authors also recommend dozens of word processing applications spreadsheet generators educational games data collection tools and online resources that can help make lessons more fun more challenging and most of all more effective
