Great Britain and the East ,1916     *John Jewel and the Problem of Doctrinal Authority* Wyndham Mason Southgate,1962

John Jewel Bishop of Salisbury was after Archbishop Parker the most important English churchman in the decisive Elizabethan era His organizational work and voluminous doctrinal writings contributed largely to the stabilization of the Anglican Church in the early years of Elizabeth s reign Among the most effective apologists in an age noted for them an eminent humanist and patristic scholar Bishop jewel brought the spirit of the new enlightenment to bear on the problem of authority which naturally arose after the Reformation s initial years of rupture and polemics A thorough knowledge of Christian tradition and scriptural interpretation enabled Jewel to find a solution that avoided authoritarianism on the one hand and its opposite extreme of total dependence on individual inspiration on the other The English Church of his time strengthened by this solid basis for a continuing via media and by the brilliance of Bishop jewel s exposition of it took cognizance of its own identity and the Establishment emerged a reality A later generation of Anglican apologists faced with the challenge of Puritanism also leaned heavily on the theories Jewel developed This study of his work and character thus holds a key to the understanding of several of the most important ideas and institutions to evolve during these formative periods of modern civilization     **The English Catalogue of Books [annual].** ,1921 Vols 1898 include a directory of publishers     The Catholic Historical Review ,1926     **Print, Manuscript & Performance** Arthur F. Marotti,Michael D. Bristol,2000 The eleven essays in this volume explore the complex interactions in early modern England between a technologically advanced culture of the printed book and a still powerful traditional culture of the spoken word spectacle and manuscript Scholars who work on manuscript culture the history of printing cultural history historical bibliography and the institutions of early modern drama and theater have been brought together to address such topics as the social character of texts historical changes in notions of literary authority and intellectual property the mutual influence and tensions between the different forms of publication and the epistemological and social implications of various communications technologies Although canonical literary writers such as Shakespeare Jonson and Rochester are discussed the field of writing examined is a broad one embracing political speeches coterie manuscript poetry popular pamphlets parochially targeted martyrdom accounts and news reports Setting writers audiences and texts in their specific historical context the contributors focus on a period in early modern England from the late sixteenth through the late seventeenth century when the shift from orality and

manuscript communication to print was part of large scale cultural change Arthur F Marotti's and Michael D Bristol's introduction analyzes some of the sociocultural issues implicit in the collection and relates the essays to contemporary work in textual studies bibliography and publication history Allergies, Poisoning and Intolerance to Common Substances Marlon Gustavo Múnera Gómez, Oscar Correa Jimenez, Juana Bustillo Arias, 2025-09-01 The purpose of this book is to provide guidance on issues that can be confused in clinical practice such as allergies intolerance and poisoning to common substances like alcohol certain foods meats shellfish and vegetables medications metals and vitamins among others Our experience in the study of allergic diseases and toxicology at the clinical and basic level has shown that there is some confusion and difficulty to understand the underlying mechanisms in the development of allergic responses and intolerance for example to shellfish This often delays or may mislead the diagnosis and management of both clinical entities For this reason this book offers a structure that allows first to understand the bases of the allergic response to different substances of consumption or frequent exposure Second to compare the mechanisms explaining the intolerance towards these substances For example in the chapter discussing allergy and intolerance to dairy products we present an immune mechanism mediated by IgE in the case of allergy while intolerance indicates a metabolic mechanism of enzyme deficiency However in both cases there are usually errors or misinterpretation in their knowledge Lastly regarding toxicology the bases of poisoning by these substances will be described when applicable This is the case of alcohol for example The work will be a useful tool for the training of medical personnel in these areas and for students and researchers interested in the investigation of these phenomena **Pollen Et Spores**, 1984 **Catholic Encyclopedia**, 1912 The Catholic Encyclopedia Charles George Herbermann, 1913 **Handbook of Sea-Level Research** Ian Shennan, Antony J. Long, Benjamin P. Horton, 2015-02-19 Measuring sea level change be that rise or fall is one of the most pressing scientific goals of our time and requires robust scientific approaches and techniques This Handbook aims to provide a practical guide to readers interested in this challenge from the initial design of research approaches through to the practical issues of data collection and interpretation from a diverse range of coastal environments Building on thirty years of international research the Handbook comprises 38 chapters that are authored by leading experts from around the world The Handbook will be an important resource to scientists interested and involved in understanding sea level changes across a broad range of disciplines policy makers wanting to appreciate our current state of knowledge of sea level change over different timescales and many teachers at the university level as well as advanced level undergraduates and postgraduate research students wanting to learn more about sea level change Additional resources for this book can be found at [www.wiley.com/go/shennan/sealevel](http://www.wiley.com/go/shennan/sealevel)
