

Pollution

Pollution is a grave concern across the Indian subcontinent, affecting both urban and rural areas. The air we breathe is contaminated with smoke from vehicles and industries, leading to respiratory problems like coughing and asthma. Rivers and lakes are polluted with industrial waste and sewage, endangering aquatic life and making water unsafe for drinking. Land pollution, caused by littering and improper waste disposal, mars the beauty of our landscapes and threatens soil fertility. The consequences of pollution extend beyond environmental degradation, impacting public health and economic development. Urgent action is needed to combat pollution through stricter regulations, community awareness, and sustainable practices.
