Private Property 3 Taboo Tales 27:

Medicine Women Jim Kristofic, 2019-04-15 After the Indian wars many Americans still believed that the only good Indian was a dead Indian But at Ganado Mission in the Navajo country of northern Arizona a group of missionaries and doctors who cared less about saving souls and more about saving lives chose a different way and persuaded the local parents and medicine men to allow them to educate their daughters as nurses The young women struggled to step into the world of modern medicine but they knew they might become nurses who could build a bridge between the old ways and the new In this detailed history Jim Kristofic traces the story of Ganado Mission on the Navajo Indian Reservation Kristofic's personal connection with the community creates a nuanced historical understanding that blends engaging narrative with careful scholarship to share the stories of the people and their commitment to this place **The Speaking Land** Ronald M. Berndt, Catherine H. Berndt, 1994-09 This is the first anthology of Aboriginal myth collected by anthropologists Ronald and Catherine Berndt during fifty years of work among the Aboriginal peoples **The Property Concepts of the Early Hebrews** Martin John Lauré, 1912 **The Property Concepts of the Early Hebrews** Jacob Elon Conner, Lorin Stuckey, Martin John Lauré, 1916 **The Book of Joshua**, 1909 **Mythology's Last Gods** William Harwood, 1992 A textual analysis of the Bible leading to a conclusion of errancy and close relation to earlier myth Annotation copyright by Book News Inc Portland OR **ICNT: Acts of the Apostles** Babu Immanuel Venkataraman, 2016-07-05 The ICNT series aims to give a well informed exposition of the meaning of the text and relevant reflections in everyday language for today's Indian context The intended audience is the theological seminary or bible college both students and faculty However the commentaries are also suitable for pastors and lay people with an interest in theology The commentaries are culturally rooted and the various applications relating to culture society and religious life will help those involved in cross cultural evangelism and mission work There is no direct equivalent of the ICNT and hence this will be the first Indian commentary series serving India and hopefully the entire subcontinent India Nepal Bangladesh and Sri Lanka **Ashanti Law and Constitution** Robert Sutherland Rattray, 1929 This volume contains the final investigations of the Anthropological department on the Ashanti with the exception of a collection of folktales which is now in course of preparation It is the last of a trilogy which includes in the series the volumes entitled Ashanti and Religion and art in Ashanti cf Pref *Unmarking Whiteness and the New American Racism* Michael L. Blakey, 2025-07-18 This book criticizes recent performative solutions to racism diversity programs at universities for example and White people's Fragility or intolerance of mature criticism These ideas are locked in an intellectually gated and defensive conversation that effectively denies the ongoing particular abuses of White supremacy This book instead proposes expensive educational and economic changes including reparations as necessary to achieve real equity Once imputed by the eugenical effects of World War II and the Civil Rights Movement's opposition to White racism the word race was largely stricken from scientific writing But biological determinism remained

deeply ensconced in an institution of science that assumed the natural world to be determining making natural science its most authoritative means Authoritative heritability estimates and genetic correlations though spurious continued to imply that obvious racial and class inequalities including their dire health effects were natural and acceptable White people often attempted to unmark their racial identity and assumed that of the uniquely normal people as though an act of anti racism Frankenberg shows On the contrary it served to deny their skin color privileges while enjoying benefits of ongoing structural racism as the only real complete human beings in the room This book uses an ethnology of anthropology to show White people s equivocal views of other s equality in their formal analyses museum collections and exhibitions and treatment of colleagues in recent times They remained deliberately deaf to critical African diasporic scholarship Thus Unmarking gives an anthropological analysis of the social history of White supremacy and shows what it is like for some to confront it In constructing this historical and sociological counternarrative the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers students and researchers with vital insights for anthropology sociology history cultural studies philosophy and American studies

Samuel, Kings and Chronicles I Athalya Brenner-Idan, Archie C.C. Lee, 2016-12-01 In this volume scholarly voices from diverse contexts and social locations are gathered together to bring new or unfamiliar facets of biblical texts to light focusing on issues of intertextuality Samuel Kings and Chronicles I sheds light from new perspectives on themes in these so called historical books including Asian American and Chinese readings issues of land genealogy and maleness The authors challenge us to consider how we deal with cultural distances between ourselves and these ancient writings and between one another in the contemporary world These goal of these essays is de centre the often homogeneous first world orientation of much biblical scholarship and open to up new possibilities for discovery of meaning and method

Anthropology and

Slavery at the Dawn of White Supremacy Michael L. Blakey, 2025-07-18 This volume examines biological and cultural data that debunk a primordial basis for racism. It tracks the ancient history of all social inequity to agricultural and feudal societies. The book then focuses on social and ideological developments in European societies associated with religious justifications for the enslavement of others. The European Enlightenment built upon those prejudices with ideas about nature and acceptable natural causes of unequal social status for people newly classified into biological races. Nineteenth-century anthropology is critiqued by African diasporic scholars who are the first Americans to argue that nurture rather than nature is responsible for human variation. The American Civil War brought slavery nearly to an end but racist science continued to grow as eugenics applied to justify otherwise unjustifiable structures of human inequality such as Jim Crow segregation as though they are morally sound. In constructing this historical and sociological counternarrative, the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers, students and researchers with vital insights for anthropology, sociology, history, cultural studies, philosophy and American studies.

Racial Segregation and Eugenical Science Between the Wars Michael L. Blakey, 2025-07-18 This volume examines the rise and decline of racial science and its relationship to the political and social imposition of Jim Crow in the American South, a racialized code of laws grounded upon an inherently racist and prejudicial pseudoscience. The author argues here that the study of human beings within the emerging 18th and 19th-century institutions of Western science was corrupted by the limited social intuitions of its enslaving, colonizing and elitist members. Western science and White societies plowed forward in continued ideological adherence to a biodeterministic imagination to justify slavery, then Jim Crow, racial segregation, immigration restriction and other deadly and exploitative eugenical solutions of Social Darwinist thought. The story is further complexified by the countervailing theories and voices of Black and Jewish intellectuals in the social and biocultural sciences in the 19th and 20th centuries such as Frederick Douglass, W. E. B. Du Bois and Montague Cobb. These had profound consequences not only for the social sciences but also for the cultural life of Black Americans in the aftermath and afterlife of slavery. At the same time, even here, the author discloses that the racialized dimensions of social science could not be fully exorcised as social science continued to construct soft-line racism in that it selectively primitivized darker people and omitted White racism and colonialism from their human story. African American social scientists and historians brought White racism and Black modernity to the fore. Eugenics had begun to paint marginal White people, Jewish and Italian immigrants to the United States as natural inferiors to Nordics or Aryans with devastating consequences in World War II Europe. As the War ended, the world community began its turn against racism in science and society. In constructing this historical and sociological counternarrative, the author provides a critical new social history that illuminates a tangled and turgid past for contemporary readers, students and researchers with vital insights for anthropology, sociology, history, cultural studies, philosophy and American studies.
