## **Probation Officer Trainee Study Guide For 2015:**

Community Risk and Protective Factors for Probation and Parole Risk Assessment Tools: Emerging Research and Opportunities Dorch, Edwina Louise, 2019-10-25 The staff in probation agencies rely heavily on a long list of case plan agreements to get their clients to obey the laws Yet the list of rules create overwhelming challenges for those on probation and parole especially those who suffer from drug addiction mental illness and physical and cognitive disabilities Though millions of dollars in grants and funding continue to be provided as a solution the rate of recidivism is still rising Community Risk and Protective Factors for Probation and Parole Risk Assessment Tools Emerging Research and Opportunities is an essential research publication that explores tools for predicting recidivism rates among incarcerated individuals The study provides evidence for an alternative explanation for a still prevailing notion that recidivism is primarily a result of personal internal failings such as mental illness or cognitive impairment versus external societal ones Featuring a wide range of topics such as affordable housing policy reform and adult education this book is ideal for criminologists sociologists law enforcement corrections officers wardens therapists rehabilitation counselors researchers policymakers criminal justice professionals academicians and students

**Professional Disobedience in Probation** Asbjørn Storgaard, 2025-06-13 This book comprises an in depth and highly inclusive ethnographic study of daily life in two local Danish probation offices With a special emphasis on manual based rehabilitative interventions the book explores the interactions between probation officers and citizens on probation serving conditional sentences or performing community service as well as the professionals rationales behind their rehabilitative efforts By presenting ethnographic findings that indicate a divergence between the envisioned trust based interactions and the reality of manual based scripted practices within the Danish probation service the analyses reveal how rehabilitative interactions may seem choreographed with roles predetermined by an asymmetric social hierarchy This framework portrays the client as inherently obstinate unpredictable and cast as an irresponsible subject Despite these challenges the book underscores probation officers genuine belief in the transformative power of motivational programs More precisely it assesses the potential for manual based or scripted rehabilitative interventions to genuinely inspire participatory citizenship among disenfranchised clients Building on these empirically informed discussions the book ultimately endeavors to provide a positive and instructive conceptualization of the diverse activities in which probation officers acknowledging the limitations of their scripted interactions with clients appear to transgress their manual based mandate and perform professional disobedience Given the broad applicability of the concept of professional disobedience extending beyond probation to other social service practices navigating the intersection of help and control this book is intended for a wide array of researchers students practitioners and policymakers with an interest in punishment disenfranchisement and rehabilitation This book is essential reading for those engaged in probation criminal justice ethnography and Nordic criminology
