Before using the device for the first time or the battery is not used for a long time, you must first to charge the battery. In the state of the power on or off, please ensure that there the battery cannot affect you charge the battery.

Only use the company's existing changes, history and data (without using the change or data collection software) to determine whether the battery supports or will damage the equipment in the condition of charging, all right down to whether the all-right down point is supported. But the battery has been completed (then the battery is healthy), the system will show it working properly.

When the power is lost, the device will shut down automatically.

Consider the following two scenarios:

- **File-sharing software is king.** It may seem to go against the program's purpose to suggest to artists that they share a file, but that's just what they need to succeed. In a recent survey, 70% of artists said they would use file-sharing software.

- Use the function with a Rowset: The `ArrayFunction` constructor takes a Rowset. I will use this point as an example.
- Create a new Rowset object from a table:
