Cognition and Acquired Language Disorders - E-Book Richard K. Peach,Lewis P. Shapiro,2011-12-10 This new graduate level textbook Cognition and Acquired Language Disorders An Information Processing Approach addresses the cognitive aspects of language and communication It assembles the most recent information on this topic addressing normal cognitive processing for language in adults the cognitive impairments underlying language disorders arising from a variety of

neurologic conditions and current assessment and treatment strategies for the management of these disorders The text is organized using an information processing approach to acquired language disorders and thus can be set apart from texts that rely upon a more traditional syndrome based approach e g stroke dementia and traumatic brain injury This approach facilitates the description and treatment of acquired language disorders across many neurologic groups when particular cognitive deficits are identified Other useful features of the text include assessment and treatment protocols that are based on current evidence These protocols provide students and clinicians a ready clinical resource for managing language disorders due to deficits in attention memory linguistic operations and executive functions Unique process oriented approach organizes content by cognitive processes instead of by syndromes so you can apply the information and treatment approaches to any one of many neurologic groups with the same cognitive deficit Cognitive domains are described as they relate to communication rather than separated as they are in many other publications where they are treated as independent behaviors A separate section on normal processing includes five chapters providing a strong foundation for understanding the factors that contribute to disordered communication and its management The evidence based approach promotes best practices for the most effective management of patients with cognitive communication disorders Coverage of the cognitive aspects of communication helps you meet the standards for certification in speech language pathology A strong author team includes two lead authors who are well known and highly respected in the academic community along with expert contributors ensuring a comprehensive advanced clinical text reference

Irony in The Twilight Zone David Melbye, 2015-12-14 Rod Serling s pioneering series *The Twilight Zone* 1959 to 1964 is remembered for its surprise twist endings and pervading sense of irony While other American television series of the time also experimented with ironic surprises none depended on these as much as Serling s However irony was not used merely as a structural device Serling and his writers used it as a

provocative means by which to comment on the cultural landscape of the time Irony in The Twilight Zone How the Series Critiqued Postwar American Culture explores the multiple types of irony such as technological invasive martial sociopolitical and domestic that Serling Richard Matheson Charles Beaumont and other contributors employed in the show David Melbye explains how each kind of irony critiqued of a specific aspect of American culture and how all of them informed one another creating a larger social commentary This book also places the show s use of irony in historical and philosophical contexts connecting it to a rich cultural tradition reaching back to ancient Greece The Twilight Zone endures because it uses irony to negotiate its definitively modernist moment of high social consciousness and low cultural escapism With its richly detailed frequently unexpected readings of episodes Irony in The Twilight Zone offers scholars and fans a fresh and unique lens through which to view the classic series **The Atlantic Monthly** ,2008 *Nurse as Educator: Principles of Teaching and Learning for Nursing Practice* Bastable,2017-12-07 *urse as Educator Principles of Teaching and Learning for Nursing Practice* Fifth Edition prepares nurse educators clinical nurse specialists and nurse practitioners for their ever increasing role in patient teaching health education health promotion and nursing education **Nurse as Educator** Susan B.
