Mengel,2013-11-11 As we move into the 21st century it is becoming increasingly difficult to offer appropriate introductory clinical experiences for medical students Many schools offer clinical experiences in the first year of medical school when the learner has little background in the traditions and origins of the doctor patient interaction Others begin this process in the second year after a professional language base has been established but concise educational materials are scarce that integrate the meaning of the privileged clinical encounter with the process and content of interviewing and examining patients In the tertiary hospitals where most medical schools are based the educators must provide an orientation to the clinical encounter an intensely personal experience in the midst of glittering technological marvels that easily distract both the novice physician and the wizened teacher Understanding the context and historical basis for the privilege of interviewing and examining another person about intimate matters relating to health and disease is essential to this process Considering these factors this textbook is written to assist medical educators and medical students involved in early clinical training As the demand for high tech medicine has accelerated so has the public concern over the loss of high touch or compassionate humane interactions with physicians Physicians are perceived as more concerned with readouts from machines and fiberoptic views of the patient than with understanding and caring about the people we have labeled as patients *Drag Vistas and Visions* Mark Edward,Stephen Farrier,2025-07-24 This third and final volume in Edward and Farrier s groundbreaking trilogy spotlights the vibrant spectrum of drag as an art form identity category and political force Drawing on practice research and interdisciplinary approaches the volume captures drag s continual capacity to challenge critique and create Drawing from a range of academic disciplines including critical disability studies media philosophy linguistics the book celebrates the many faces and possibilities of drag as a cultural and performance form The contributions include chapters that are assertively activist deeply reflective and thought provoking This third volume goes in search of new conversations through the exploration of critical drag studies The frameworks that formulate these conversations advocate for a broader inclusive vision of drag while not shying away from some of its problematic components The chapters peek behind the glamorous veneer of drag exposing the grit and sweat that underpin

the performance while winking at the theory that we may use to understand Drag Vistas and Visions sees drag through a transformative lens that pushes boundaries and transcends the ordinary **Jackson Square Jazz** Greg Herren,2005-03-01

gaming industry Although there were attempts to incorporate women into development roles and market towards them as players the creation of video games and the industry began in a world strongly gendered male The early 1980s saw a blip of hope that the counter cultural industry focused on fun would begin to include women but after the video game industry crash this free wheeling freedom of the industry ended along with the beginnings of the inclusion of women Many of the threads that began in the early years continued or have parallels with the modern video game industry The industry continues to struggle with gender relations in the workplace and with the strongly gendered male demographic that the industry perceives as its main market

Tennessee Williams's America Ahmed Honeini,2025-09-11 Tennessee Williams s America is the first full length study of homes families and familial exile in the plays of Tennessee Williams The central argument of this book is that Williams s vision of American life in his plays is predicated upon challenging the traditional idea of the home and family Throughout his plays the patriarchal space of the American home and family is shown to victimize and oppress two of society s most marginalized groups women and queer people in Williams s plays the experiences of one group often mirror and intersect with those of the other From his earliest plays such as *Candles to the Sun* and *Fugitive Kind* to the masterpieces of his major phase including *Battle of Angels* *Orpheus Descending* *The Rose Tattoo* *Cat on a Hot Tin Roof* *Period of Adjustment* *Suddenly Last Summer* and *Sweet Bird of Youth* through to the much maligned but equally rich works

of his late period such as *Vieux Carr* and *Something Cloudy Something Clear* Williams depicts the home as a place which restricts and suffocates those who fail to perform their expected gender role in the wider patriarchal framework of American life In its extended full length treatment of homes families and familial exiles in his theatrical output this book adds a new perspective to Williams scholarship by examining the desperate and at times futile search for love relationality and belonging that his marginalized and alienated characters frequently pursue in alternative avenues of existence
