Intercultural Responsiveness in the Second Language Learning Classroom Jones, Kathryn, Mixon, Jason R., 2016-12-28

Association, Information Resources, 2019-02-01. Educational technologies are becoming commonplace entities in classrooms as they provide more options and support for teachers and students. Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on National Statistics, Panel to Review Alternative Data Sources for the Limited-English Proficiency Allocation Formula Under Title III, Part A, Elementary and Secondary Education Act, 2011-07-20. As the United States continues to be a nation of immigrants and their children, the nation's school systems face increased enrollments of students whose primary language is not English. With the 2001 reauthorization of the Elementary and Secondary Education Act (ESEA) in the No Child Left Behind Act (NCLB), the allocation of federal funds for programs to assist these students to be proficient in English became formula-based: 80 percent on the basis of the population of children with limited English proficiency¹ and 20 percent on the basis of the population of recently immigrated children and youth. Title III of NCLB directs the U.S. Department of Education to allocate funds on the basis of the more accurate of two allowable data sources: the number of students reported to the federal government by each

state education agency or data from the American Community Survey ACS The department determined that the ACS estimates are more accurate and since 2005 those data have been basis for the federal distribution of Title III funds Subsequently analyses of the two data sources have raised concerns about that decision especially because the two allowable data sources would allocate quite different amounts to the states In addition while shortcomings were noted in the data provided by the states the ACS estimates were shown to fluctuate between years causing concern among the states about the unpredictability and unevenness of program funding In this context the U S Department of Education commissioned the National Research Council to address the accuracy of the estimates from the two data sources and the factors that influence the estimates The resulting book also considers means of increasing the accuracy of the data sources or alternative data sources that could be used for allocation purposes

Data and Teaching Joseph P. McDonald, Nora M. Isacoff, Dana Karin, 2018-06-22 Data use in teaching is at the heart of current educational policy and school improvement efforts Dispelling magical thinking that it is a simple solution to underachieving schools this timely book explores what data use in teaching really is how it works in theory and practice and why it sometimes fails to achieve expected goals Drawing on their research in nine of New York City s most poverty impacted schools the authors dive deep into school systems and routines as well as into teachers practices and students experiences They also zoom out to capture the larger currents that have made this school reform strategy so prominent today Each chapter includes a discussion of a new direction that schools and teachers can take to ensure that data use in teaching actually spurs growth in learning This resource extracts lessons from both chaotic and productive data implementation in order to inform practice and fulfill hopes for better schooling richer teaching and deeper learning Book Features Provides practical guidelines for effective use of data in schools and classrooms Includes vivid descriptions and relatable narratives Explores in rich detail what teaching is and how it works Combines insightful ideas and powerful stories with concrete steps for improvement

The Language Demands of School Alison L. Bailey, 2007-01-01 The Language Demands of School is an edited volume describing an extensive empirical base for academic English testing instruction and professional development The chapters comprise empirical research by Bailey and colleagues at the National Center for Research on Evaluation Standards Student Testing CRESST at UCLA and invited contributions by practitioners in the fields of language policy testing and instruction The central focus of the chapters is the research conducted by CRESST over the last two years in an attempt to document the academic English language demands placed on school age learners of English The three additional chapters give the perspectives of a policy maker at the state level test developers and practitioners The Language Demands of School fills a gap in the current literature by addressing the kinds of English required of K 12 English Learner students from an evidence based perspective This is timely given the broader context of the No Child Left Behind Act of 2001 which has prompted school systems to identify English language proficiency tests to meet the federal mandate One of the problems that has surfaced in the search for English language tests for K 12

English Learner students is the inadequacy of existing research on the development of the academic English language skills that all students both English Learner and native English speaking need to be successful in the school setting The Language Demands of School is devoted to exploring this topic and to presenting research that illuminates both the questions and the answers

Bilingualism for All? Nelson Flores, Amelia Tseng, Nicholas Subtirelu, 2020-12-16 It is common for scholarly and mainstream discourses on dual language education in the US to frame these programs as inherently socially transformative and to see their proliferation in recent years as a natural means of developing more anti racist spaces in public schools In contrast this book adopts a raciolinguistic perspective that points to the contradictory role that these programs play in both reproducing and challenging racial hierarchies The book includes 11 chapters that adopt a range of methodological techniques qualitative quantitative and textual disciplinary perspectives linguistics sociology and anthropology and language foci Spanish Hebrew and Korean to examine the ways that dual language education programs in the US often reinforce the racial inequities that they purport to challenge
