Produire En France Cest Possible:

Produire en France, c'est possible ! Robert Rochefort, 2012-03-01 Produire en France est devenue l'initiative de François Bayrou l'un des thèmes majeurs de la lection présidentielle Non pas pour renouer avec le protectionnisme ce serait une impasse mais tout simplement pour refuser l'effondrement de notre industrie et la progression effrénée du chômage Si chaque consommateur acceptait de modifier seulement un de ses achats sur dix en optant pour un produit fabriqué en France au lieu d'acquiescer comme aujourd'hui un produit anonyme venant de l'autre bout du monde le déficit de notre commerce extérieur serait réduit de moitié L'activité pourrait repartir et plusieurs centaines de milliers d'emplois seraient créés sans que cela coûte un euro en dépenses publiques Consommer mieux et non pas toujours plus voilà qui va de pair avec la relance de la production sur le territoire national Les Français se disent prêts Et c'est possible condition de le vouloir vraiment d'en faire une priorité politique de prendre les bonnes décisions et de mobiliser les énergies de tous Robert Rochefort est député européen vice président du MoDem et proche conseiller de François Bayrou économiste et sociologue il est spécialiste de l'analyse des attentes de la société Il a dirigé le Centre de recherche pour l'étude et l'observation des conditions de vie Crdoc jusqu'en 2009 Plusieurs de ses livres portent sur les comportements des consommateurs La Société des consommateurs Le Consommateur entrepreneur Le Bon Consommateur et le Mauvais Citoyen
