Table 1: Introduction, Constraints and Program Name (Steps 1-3)

<b>Introduction</b> Provide a short introduction to the recreation program and evaluation plan.	The recreational program that will be outlined in this evaluation plan is The Boys & Girls Athletic Club. This recreational program can be explained as a weekly "gym class" for individuals of all ages to enjoy recreation and leisure activities. However, the initial launch of the BGAC will be tailored to older individuals looking for consistent and enjoyable recreational activities (Ages 21 – 60). The members of the BGAC will be joining a program that offers physical activity, team orientated sports, engagement with other like-minded individuals and a public space to develop new interests/hobbies. We will evaluate if the program has been successful by developing short- and long-term questions. The questions will be answered to evaluate possible program outcomes, the effect of constraints to participating individuals and if the recreational plan was successful. I look forward to introducing the idea.

**Museum Master Planning** Guy Hermann,Sara Patton Zarrelli,2025-04-15 Museum Master Planning Basic Principles and Best Practices is a practical guide for directors of museums and similar cultural organizations considering changes to their operating model or facilities Museum Master Planning presents a complete step by step planning process that results in a master plan that will

shape a museum's growth and development over the next 15 to 20 years. The planning process outlined here begins with people who is the museum serving now. Who would the museum like to be serving in the future? When a museum understands the interests and needs of the people they serve, the kinds of programs, facilities, and operational underpinnings needed come into focus. Using lessons from successful museum master plans, the planning process outlined here results in a user-focused plan for the future. Detailed chapters on museum programs, staffing, and facilities provide the foundation for growth and development. The final sections of the book discuss working with other planning and design experts to fully realize the plan. Field-tested tools, worksheets, and other resources will allow readers to easily implement the planning process at their own institution.
