Sunday with the worst storm of the series started March 1. This photograph was taken Sunday afternoon on the prairie nine miles north of Boise City, Okla. When the dust cloud struck the photographer, just after snapped the picture, his face was beaten raw by driving particles of sand churned up by the gale.

that causes duststorms. This map, compiled from reports of 135 climatological stations of the department of agriculture, shows the excess and deficiency of moisture all over the country since the first of the year. One odd thing about the map is that Kansas reports normal rainfall, but has nevertheless suffered from duststorms probably more than any other state. Another interesting angle is that Florida has had the worst deficiency, its precipitation being 53 per cent below normal. But, of course, normal in Florida is very wet.

**Letters from the Dust Bowl** Caroline Henderson, 2012-10-19 In May 1936 Secretary of Agriculture Henry A Wallace wrote to Caroline Henderson to praise her contributions to American understanding of some of our farm problems His comments reflected the national attention aroused by Henderson's articles which had been published in Atlantic Monthly since 1931 Even today Henderson's articles are frequently cited for her vivid descriptions of the dust storms that ravaged the Plains Caroline Henderson was a Mount Holyoke graduate who moved to Oklahoma's panhandle to homestead and teach in 1907 This collection of Henderson's letters and articles published from 1908 to 1966 presents an intimate portrait of a woman's life in the Great Plains Her writing mirrors her love of the land and the literature that sustained her as she struggled for survival Alvin O Turner has collected and edited Henderson's published materials together with her private correspondence Accompanying biographical sketch chapter introductions and annotations provide details on Henderson's life and context for her frequent literary allusions and comments on contemporary issues [The Dust Bowl to Wwii](#) Captain Bob

Norris, 2014-08-11 Americans who sacrificed everything including their sons and daughters in an effort to save the world from Germany and Japan during World War II will forever be known as the Greatest Generation In this historical novel by veteran Captain Bob Norris Robert Elliot emerges as an iconic representative of the generation that helped the United States win the war and begin an unrivaled period of prosperity Fleeing the environmental and economic devastation of the Dust Bowl Elliot's family moves to the Alaskan frontier to carve out a new life as homesteaders As a young man he discovers his two loves flying airplanes and his eventual bride Dee Everything changes for Elliot and for America on Dec 7 1941 when the Japanese attacked Pearl Harbor As a fighter pilot in the Army Air Corps he engages the enemy shooting down Japanese planes when his plane is shot down near Borneo Elliot begins his greatest battle the fight to survive captivity and return home to Dee He only thought life in the Dust Bowl and Alaskan frontier were challenging Being a prisoner of war and his escape is a trial unlike any other An interesting and historically accurate account of life in the United States before and during WWII from the perspective of a kid growing up in the dust bowl to air combat in the Pacific The young man then transitions to a fledgling airline business while offering us a glimpse of what our parents endured in America when they were young You feel like you were actually there during those earlier difficult years Well Done **America's Disaster Culture**

Robert C. Bell, Robert M. Ficociello, 2017-10-19 Are we inside the era of disasters or are we merely inundated by mediated accounts of events categorized as catastrophic America's Disaster Culture offers answers to this question and a critical theory surrounding the culture of natural disasters in American consumerism literature media film and popular culture In a hyper mediated global culture disaster events reach us with great speed and minute detail and Americans begin forming interpreting and historicizing catastrophes simultaneously with fellow citizens and people worldwide America's Disaster Culture is not policy management or relief oriented It offers an analytical framework for the cultural production and

representation of disasters catastrophes and apocalypses in American culture It focuses on filling a need for critical analysis centered upon the omnipresence of real and imagined disasters epidemics and apocalypses in American culture However it also observes events such as the Dust Bowl Hurricane Katrina and 9 11 that are re framed and re historicized as natural disasters by contemporary media and pop culture Therefore America s Disaster Culture theorizes the very parameters of classifying any event as a natural disaster addresses the biases involved in a catastrophic event s public narrative and analyzes American culture s consumption of a disastrous event Looking toward the future what are the hypothetical and actual threats to disaster culture Or are we oblivious that we are currently living in a post apocalyptic landscape

**Legacies of Dust: Land Use and Labor on the Colorado Plains** Douglas Sheflin, 2019-06 2019 Choice Outstanding Academic Title 2020 Center for the Study of the American West CSAW Award for Outstanding Western Book Finalist The Dust Bowl of the 1930s was the worst ecological disaster in American history When the rains stopped and the land dried up farmers and agricultural laborers on the southeastern Colorado plains were forced to adapt to new realities The severity of the drought coupled with the economic devastation of the Great Depression compelled farmers and government officials to combine their efforts to achieve one primary goal keep farmers farming on the Colorado plains In Legacies of Dust Douglas Sheflin offers an innovative and provocative look at how a natural disaster can dramatically influence every facet of human life Focusing on the period from 1929 to 1962 Sheflin presents the disaster in a new light by evaluating its impact on both agricultural production and the people who fueled it demonstrating how the Dust Bowl fractured Colorado's established system of agricultural labor Federal support combined with local initiative instituted a broad conservation regime that facilitated production and helped thousands of farmers sustain themselves during the difficult 1930s and again during the drought of the 1950s Drawing from western environmental transnational and labor history Sheflin investigates how the catastrophe of the Dust Bowl and its complex consequences transformed the southeastern Colorado agricultural economy

**On the Dirty Plate Trail** Sanora Babb, 2009-03-06 Runner up National Council on Public History Book Award 2008 The 1930s exodus of Okies dispossessed by repeated droughts and failed crop prices was a relatively brief interlude in the history of migrant agricultural labor Yet it attracted wide attention through the publication of John Steinbeck's The Grapes of Wrath 1939 and the images of Farm Security Administration photographers such as Dorothea Lange and Arthur Rothstein Ironically their work risked sublimating the subjects real people and actual experience

into aesthetic artifacts icons of suffering deprivation and despair Working for the Farm Security Administration in California's migrant labor camps in 1938-39 Sanora Babb a young journalist and short story writer together with her sister Dorothy a gifted amateur photographer entered the intimacy of the dispossessed farmers' lives as insiders evidenced in the immediacy and accuracy of their writings and photos Born in Oklahoma and raised on a dryland farm the Babb sisters had unparalleled access to the day by day harsh reality of field labor and family life This book presents a vivid firsthand account of the Dust Bowl refugees the migrant labor camps and the growth of labor activism among Anglo and Mexican farm workers in California's agricultural valleys linked by the Dirty Plate Trail Highway 99 It draws upon the detailed field notes that Sanora Babb wrote while in the camps as well as on published articles and short stories about the migrant workers and an excerpt from her Dust Bowl novel *Whose Names Are Unknown* Like Sanora's writing Dorothy's photos reveal an unmediated personal encounter with the migrants portraying the social and emotional realities of their actual living and working conditions together with their efforts to organize and to seek temporary recreation An authority in working class literature and history volume editor Douglas Wixson places the Babb sisters' work in relevant historical and social political contexts examining their role in reconfiguring the Dust Bowl exodus as a site of memory in the national consciousness Focusing on the material conditions of everyday existence among the Dust Bowl refugees the words and images of these two perceptive young women clearly show that contrary to stereotype the Okies were a widely diverse people including not only Steinbeck's sharecropper Joads but also literate independent farmers who in the democracy of the FSA camps found effective ways to rebuild lives and create communities
