A new imperative Chris Duke, Michael Osborne, Bruce Wilson, 2016-05-16 At a

time in history when global challenges are becoming more intractable and threatening it makes sense to draw on the specialist expertise of our universities Much of government interest in doing so has typically focused on the major research institutions with their records of new discovery and invention However there is extensive evidence that the greatest opportunities are at regional level Despite globalisation regions are becoming more and more important as sites of identity and policy intervention Regions can take their futures into their own hands and their local universities are a crucial resource of expertise to support these initiatives However there have been significant barriers to effective cooperation between universities and their regional authorities This book provides an analysis of these circumstances and draws on an international research project to point academics policy makers and practitioners in the right direction It provides extensive

evidence from this project to support its argument *Theatre and The Rural* Jo Robinson,2016-06-29 How has theatre represented the rural And how does a re viewing of theatre of and in the rural help to build and complicate our sense of place Theatre the Rural explores the different ways in which theatre has performed the rural from the medieval to the contemporary and examines the changing relationships between place performance and audience when theatre is staged in rural communities The book argues that theatre has a key role to play in both producing and potentially changing understandings of the rural challenging dominant views of the relationships between city and country which can affect the political social and cultural lives of the nation **Rick Steves Scotland** Rick Steves,2016-05-03 Whether you take the high road or the low road with Rick Steves on your side Scotland can be yours Inside Rick Steves Scotland you ll find
