The Right Place Arturo Bris, 2021-07-28 The Right Place explains why firms succeed in one country and fail in another irrespective of their inner drivers and suggests potential initiatives that governments can take to help the private sector create jobs and consequently make their countries more prosperous The competitiveness race is not unlike a cycling race If you want to ride fast you need three things a good bike to be in good shape and a smooth and fast road In a collaborative model you might say the business is the bicycle the business leader is the cyclist and the road is the government and the external environment The responsibility of a government is to design and build the best possible road It turns out that when the road is good good cyclists suddenly appear and want to race on it In this book competition and macroeconomics expert Arturo Bris provides the analysis of country competitive performance based on 30 years advising countries on this topic The typical mistakes that countries make are revealed and the pillars necessary in building a competitive economy economic performance as a necessary condition for prosperity government efficiency so the public sector can create the conditions for a productive economy business efficiency so companies can create jobs and infrastructure both tangible and intangible so businesses and individuals can operate efficiently With contemporary case studies throughout the book provides an illuminating read for politicians business leaders and students of macroeconomics

European Yearbook of International Economic Law 2015 Christoph Herrmann, Markus Krajewski, Jörg Philipp Terhechte, 2015-07-04 This sixth volume 2015 of the European Yearbook of International Economic Law puts a particular emphasis on non tariff barriers NTBs to trade and the world trade order With the steady reduction of tariff rates since the GATT 47 came into force focus in recent years has been on the vast and complex landscape of non tariff barriers to trade States as well as scholars seemingly struggle with the multitude of measures pooled under this expression as there is no single acknowledged definition of the term and its relation to the term non tariff measures remains equally blurred Particularly in practice and on a multilateral level there appears to be some awkwardness when it comes to coping with NTBs since multilateral trade rules seem to be in conflict with national regulatory autonomy in the pursuit of policy objectives In part one this volume sheds light on the problems of non tariff barriers to trade that arise in various fields Part two focuses on regional integration with an emphasis on relations between East Asia and the European Union In this regard the authors outline the trade and investment relations between the European Union and East Asia including Japan Korea and Singapore Part three offers an overview of recent institutional developments in WIPO ICSID WTO and WTO jurisprudence Part four includes book reviews of recent works in the field of international economic law and part five introduces a new section on publications in the field of international economic law that were released in 2013 and 2014

The BRICS and the Future of Global Order Oliver Stuenkel, 2020-02-03 The transformation of the BRIC acronym from an investment term into a household name of international politics and into a semi institutionalized political outfit called BRICS with a capital S is one

of the defining developments in international politics in the past decades While the concept is now commonly used in the general public debate and international media there has not yet been a comprehensive and scholarly analysis of the history of the BRICS term The BRICS and the Future of Global Order Second Edition offers a definitive reference history of the BRICS as a term and as an institution a chronological narrative and analytical account of the BRICS concept from its inception in 2001 to the political grouping it is today In addition it analyzes what the rise of powers like Brazil Russia India China and South Africa means for the future of global order Will the BRICS countries seek to establish a parallel system with its own distinctive set of rules institutions and currencies of power rejecting key tenets of liberal internationalism or will they seek to embrace the rules and norms that define today's Western led order

Entrepreneurship, Community, and Community Development Michael W-P Fortunato, Theodore R. Alter, 2017-08-09 While entrepreneurship is widely cited as playing a key role in economic development job creation and advances in well being in capitalist nations there has been an overwhelming focus on the firm firm founders and founders strategies and decision making processes Only more recently the important link between communities and entrepreneurs has emerged as a new frontier in entrepreneurship research This book brings the emerging nexus between community and entrepreneur to light by exploring the mutual impact that communities and entrepreneurs have on one another It focuses on how entrepreneurship development can push beyond the traditional emphasis on economic growth from enriching the local lifestyle to building self sufficiency from attracting new markets to rediscovering traditional work from the highest tech enterprises to the most ancient crafts and trades The authors cover a wide variety of topics including rural community entrepreneurship development and culture innovation and regional development community based enterprise learning and urban revitalization strategies This book was originally published as a special issue of the journal Community Development

Collective Goods and Higher Education Research Roger Benjamin, 2018-09-19 With this volume the author demonstrates how a collective goods approach to higher education research can alleviate problems of rising costs declining resources and growing concerns about undergraduate learning In taking this approach the author presents new tools of analysis borrowed from cognitive science economics data analytics education technology and measurement science to investigate higher education s place in society as a public or private good By showing how these tools can be utilized to reorient current research this volume offers scholars and policy makers an argument for the large scale use of scientific and economic approaches to higher education s most pressing issues *Rethinking the Market Economy* J. Lambin, 2014-03-14

This book explores the changing socio economic and technological landscape of the 21 century and what it means It adopts an industrial economic approach whilst proposing a road map leading to the adoption of a societal market economy model as an appealing and politically acceptable third way between capitalism and socialism **Economic Governance in Europe**

Federico Fabbrini, 2016 Offering a comparative examination of the constitutional implications of the Euro crisis on vertical and horizontal relations of power in the EU this book proposes new ways in which to perfect the governance of Economic and Monetary Union *A Leader's Destiny* Elias Aboujaoude, 2024-05-21

A psychiatrist puts leadership on the couch with a provocative exploration of its crucial often ignored psychological and personal character foundations Elias Aboujaoude s distinctive exploration of leadership explains how our cultlike obsession with leadership gives narcissists and sociopaths an edge and results in leadership failure everywhere we look and how resisting the imperative to rise at all costs leaves many with an inferiority complex His takedown of the leadership industrial complex pokes a very sharp elbow into an industry seemingly united in a modern form of alchemy to create leadership gold a waste of time and money Aboujaoude vividly illustrates since leaders emerge from a unique combination of personal psychological and situational factors that cannot be easily controlled or manipulated no matter how gifted the executive coach This bracing take on a classic subject provides new insight into the way psychology aligns with the requirements of effective and happy leadership The result is to empower us to understand ourselves and step up if we have what it takes to lead or find equally rewarding often superior ways to achieve fulfillment if we don t
