Media Analysis and Public Health Lesley Henderson, Shona Hilton, Judith Green, 2020-06-29 This volume showcases new approaches to studying public health in traditional and emerging media suggesting that we need more analyses that focus on the production of media and on power dynamics as well as studies of audience reception of media messages The collection asks a variety of questions about the role of media in analysing public health Contributors ask who is influential in producing the stories we see in the press and on social media Who benefits and who is damaged by media debates on health topics They investigate the role of big business in seeking to shape public opinion and consumption in print and online media how issues such as hand washing come to be framed over time by newspapers how conflicts over immunisations get covered how health promotion messages do their work and the positive role of online media in helping foster drug safety Together they reach the conclusion that since mass media is a crucial element of civic society more in depth understanding of how it works and what impacts it has on public health is essential Given the crucial role of the media in shaping health debates pushing certain issues up the policy agenda defining problems for audiences and presenting potential solutions this book's analysis will be of interest to all those studying how the media shape policy as well as public health researchers with an interest in mass communication This book was originally published as a special issue of *Critical Public Health*

Women's Lives around the World Susan M. Shaw, Nancy Staton Barbour, Patti Duncan Ph.D., Kryn Freehling-Burton Ph.D., Jane Nichols, 2018-01-04 Providing an in depth look at the lives of women and girls in approximately 150 countries this multivolume reference set offers readers transnational and postcolonial analysis of the many issues that are critical to the success of women and girls For millennia women around the world have shouldered the responsibility of caring for their families But in recent decades women have emerged as a major part of the global workforce balancing careers and family life How did this change happen And how are societies in developing countries responding and adapting to women's newer roles in society This four volume encyclopedia examines the lives of women around the world with coverage that includes the education of girls and teens the key roles women play in their families careers religions and cultures how issues for women intersect with colonialism transnationalism feminism and established norms of power and control Organized geographically each volume presents detailed entries about the lives of women in particular countries Additionally each volume offers sidebars that spotlight topics related to women and girls in specific regions or focus on individual women's lives and contributions Primary source documents include sections of countries constitutions that are relevant to women and girls United Nations resolutions and national resolutions regarding women and girls and religious statements and proclamations about women and girls The organization of the set enables readers to take an in depth look at

individual countries as well as to make comparisons across countries **Handbook of Research on Social, Cultural, and Educational Considerations of Indigenous Knowledge in Developing Countries** Ngulube, Patrick, 2016-09-29

Knowledge systems are an essential aspect to the preservation of a community's culture. In developing countries, this community-based knowledge has significant influence on such things as decision making and problem solving. The *Handbook of Research on Social Cultural and Educational Considerations of Indigenous Knowledge in Developing Countries* is an authoritative reference source for the latest scholarly research on the importance of knowledge and value systems at the community level and ways indigenous people utilize this information. Highlighting impacts on culture and education in developing nations, this book is ideally designed for researchers, academicians, policy makers, students, and professionals interested in contemporary debates on indigenous knowledge systems. *Building the Anti-Racist University* Shirley Anne Tate, Paul Bagguley, 2018-12-18 In the new arena for anti-racist work in which we find ourselves, the neo-liberal post-race university, this interdisciplinary collection demonstrates common global political concerns about racism in Higher Education. It highlights a range of issues regarding students, academic staff, and knowledge systems, and all of the contributions seek to challenge the complacency of the post-race present that is dominant in North West Europe and North America. Brazil's mythical racial democracy and South Africa's post-apartheid rainbow nation. The collection makes clear that we are not yet past the need for anti-racist institutional action because of the continuing impact of coloniality on and in these nations. From within the colonial psyche which still exists in the 21st century, these nations actively deracinate politics, subjectivities, political economy, and affective relationalities when they re-imagine themselves to be post-race states where all citizens can have a share in the good life because now only class matters. Universities have also taken on the mantle of upholding societal post-race status through ineffective equality and diversity policies and strategies. The collection makes the case for the urgent need to decolonize the university in post-race neoliberal times through a focus on institutional racism in HEIs in Canada, Brazil, South Africa, the UK, and the USA. As such, it addresses institutional whiteness, the transformation of organizational cultures, the presence and experiences of Black people, People of Colour, and Indigenous people in HEIs, the development of curriculum interventions, widening participation, and organizational change, and future directions for racial equality and diversity in a post-race era. This book was originally published as a special issue of *Race, Ethnicity and Education*. **The Routledge Handbook of Phonological Theory** S.J. Hannahs, Anna Bosch, 2017-12-14 The *Routledge Handbook of Phonological Theory* provides a comprehensive overview of the major contemporary approaches to phonology. Phonology is frequently defined as the systematic organisation of the sounds of human language. For some, this includes aspects of both the surface phonetics together with systematic structural properties of the sound system; for others, phonology is seen as distinct from and autonomous from phonetics. The *Routledge Handbook of Phonological Theory* surveys the differing ways in which phonology is viewed, with a focus on current approaches to phonology. Divided into two parts, this handbook covers major

conceptual frameworks within phonology including rule based phonology Optimality Theory Government Phonology Dependency Phonology and connectionist approaches to generative phonology explores the central issue of the relationship between phonetics and phonology features 23 chapters written by leading academics from around the world The Routledge Handbook of Phonological Theory is an authoritative survey of this key field in linguistics and is essential reading for students studying phonology **Positive Educational Approaches to Teaching Effectiveness and Student Well-being** Hans Henrik Knoop,Mirna Nel,Sufen Chen,Rebecca Shankland,Llewellyn Ellardus Van Zyl,Matthew Cole,2022-11-08

Routledge Handbook of Critical Studies in Whiteness Shona Hunter,Christi van der Westhuizen,2021-11-29 This handbook offers a unique decolonial take on the field of Critical Whiteness Studies by rehistoricising and re spatialising the study of bodies and identities in the world system of coloniality Situating the critical study of whiteness as a core intellectual pillar in a broadly based project for racial and social justice the volume understands whiteness as elaborated in global coloniality through epistemology ideology and governmentality at the intersections with heteropatriarchy and capitalism The diverse contributions present Black and other racially diverse scholarship as crucial to the field The focus of inquiry is expanded beyond Northern Anglophone contexts to challenge centre margin relations examining whiteness in the Caribbean South Africa and the African continent Asia the Middle East as well as in the United States and parts of Europe Providing a transdisciplinary approach and addressing debates about knowledges black and white subjectivities and newly defensive forms of whiteness as seen in the rise of the Radical Right the handbook deepens our understanding of power place and culture in coloniality This book will be an invaluable resource for researchers advanced students and scholars in the fields of Education History Sociology Anthropology Psychology Political Sciences Philosophy Critical Race Theory Feminist and Gender Studies Postcolonial and Decolonial Studies Security Studies Migration Studies Media Studies Indigenous Studies Cultural Studies Critical Diversity Studies and African Latin American Asian American British and European Studies

Philanthropic Response to Disasters Alexandra Williamson,Diana Leat,Susan D. Phillips,2023-03-30 When disaster strikes our instinctive response is to make things better not only as individuals but also as groups organisations communities and major institutions within society With increasing climate related disasters and the potential for future global pandemics philanthropy will continue to play an essential role Yet our knowledge of how philanthropic responses to disasters are motivated organised and received is fragmented This book is a step toward curating our existing knowledge in the emerging field of disaster philanthropy and to building a robust base for future research practice and public policy The authors highlight unknowns and ambiguities extensions and unexplored spaces and challenges and paradoxes Above all they recognise that philanthropic responses to disasters are complex conditional and subject to change **El-Hi Textbooks &**
